BOARD MEMORANDUM

ACTION DISCUSSION INFO

TO: Citizens Advisory Committee
 Santa Clara Valley Transportation Authority
 Board of Directors

THROUGH: Michael T. Burns
 General Manager

FROM: Carolyn M. Gonot
 Chief Development Officer

SUBJECT: Proactive CMP Reviewed and Approved Projects Quarterly Status Report
 April through June 2006

FOR INFORMATION ONLY

VTA is involved in two project review processes: 1) review of environmental documents and development proposals as part of VTA's Development Review Program; and 2) review of the Congestion Management Program's (CMP) Transportation Impact Analysis (TIA) reports of proposed projects meeting TIA guideline requirements.

The Proactive CMP Process coordinates these two processes and established guidelines for VTA review of these documents prior to project development approval by Member Agencies. As part of the Proactive CMP Process, VTA produces quarterly reports on land-use approvals. The attached report consists of the following two elements:

- **Comments on Selected Projects Reviewed by VTA:** A list of the projects reviewed by the Congestion Management Program and Development Review Program with relevant VTA comments.
- **City/County Responses Quarterly Report:** A list of the projects recently approved by Member Agencies with relevant VTA comments and the Member Agency's responses for each project that improve CMP facilities and promote alternative transportation modes.

Both elements of the report include the lead agency and project name, project description and location, and a summary of VTA review comments while the second element of the report includes a listing of the agency's responses to VTA's comments relating to CMP facilities and promoting alternative transportation modes.
