Mr. Randy Tamez, Chair
Committee for Transit Accessibility
2037 Leon Drive
San Jose, CA 95128

Dear Mr. Tamez: *Randy*

Your request to Board Members Gage, Williams and Kerr to agendize an item regarding the Committee for Transit Accessibility (CTA) was forwarded to me. As you may recall, at our last Transportation Planning and Operations Committee (TP&O) meeting, I indicated we would look into the issues you raised at the meeting. We at TP&O are responsible for the relationship with CTA and are the primary point of contact for any items of concern the CTA may have.

We all appreciate your interest and dedication to the issues of importance to the disabled community. As a result, I have directed that an item regarding CTA issues be added to the agenda of the next available TP&O meeting which is scheduled for October 17th. As you know the TP&O Committee has always been attentive to the issues and concerns of the disabled community and we look forward to working with you and the CTA to improve VTA's service delivery to this special community.

Warm personal regards,

A handwritten signature in cursive script that reads 'Dolly'.

Dolly Sandoval
Chair
Transportation Planning and Operations Committee
Santa Clara Valley Transportation Authority

Subject: Request For An Agenda Item

Hello Board Members Kerr and Gage,

I'm requesting an agenda item on Admin And Finance committee to review the mainstreaming of people with disabilities into VTA. In July the CTA supported the memo of mainstreaming and now we are requesting the Board of directors to adopt the memo for implementation throughout VTA.

Please let me know what our next steps are to formally request this item be heard. I've attached the original memo for your review.

Thanks,

Randy Tamez

CTA Chair
