The FY2006 Transit Security Grant Program (TSGP) includes a requirement that the eligible transit systems selected for funding adopt a Resolution to authorize the submittal and execution of grant applications and agreements, certifications and assurances and other documents as necessary to obtain federal financial assistance provided by the ODP and participate in a Regional Transit Security Working Group (RTSWG). The purpose of the RTSWG is to develop Regional Transit Security Strategies (RTSS) as well as a regional consensus on the expenditure of FY2006 TSGP funds. VTA staff has actively participated in the RTSWG.

DISCUSSION:

On June 8, 2007 VTA received a Grant Adjustment Notice (GAN) from the U.S. Department of Homeland Security FEMA indicating that VTA’s projects were fully funded in the amount \$1,186,349 (\$880,799 from the regional rail allocation and \$305,550 from the regional bus allocation). The Transportation Security Administration (TSA) approved the following projects:

- National Incident Management System (NIMS) training (NIMS is a comprehensive, national approach to incident management that applies to all jurisdictional levels and across functional disciplines)
- High security fencing at the Guadalupe (Light Rail) Division
- CCTV video on demand at the Cerone (Bus) Division
- CCTV video on demand at the Alum Rock, Great Mall, Hamilton, and Mountain View light rail stations. The light rail station locations were selected based on regional connectivity and also on station design, ridership, and security related activities.

Table I summarizes the projects approved for the FY2006 TSGP funds.

Table I
Summary of OHS Funded VTA Projects (FY2006 TSGP)

Funding Cycle	Mode	Project Description	Grant Amount	VTA Contribution
FY2006 TSGP	Rail	NIMS Training	\$172,577	\$0
FY2006 TSGP	Rail	Security Fencing at Guadalupe Division	\$159,432	\$142,568
FY2006 TSGP	Rail	CCTV Video on Demand at Alum Rock, Great Mall, Hamilton and Mountain View Light Rail Stations	<u>\$548,790</u>	<u>\$436,397</u>
Subtotal Rail			\$880,799	\$578,956
FY2006 TSGP	Bus	CCTV Video on Demand at Cerone Operating Division	<u>\$305,550</u>	<u>\$171,362</u>
Total FY2006 TSGP			\$1,186,349	\$750,327

No local match is required to receive this grant. However, the FY06 TSGP funds cannot be allocated to VTA internal labor. Therefore, an agency commitment of \$750,327 in local funding is required. This amount was included in the FY08 Adopted Budget.

ALTERNATIVES:

The Board of Directors could choose not to accept the grant or select other qualifying security projects. The Regional Transit Security Working Group and the State of California must approve all changes in project scope and TSA has final approval authority.

FISCAL IMPACT:

The FY06 TSGP grant amount of \$1,186,349 and the local funds of \$750,327 that are required to support these security-related projects are included in the FY08 Adopted Budget. Note the grant amount is net of the 3% that is retained by the State Administrative Agency for grant administration. These grant funds will be used for NIMS training, high security fencing, and to expand the CCTV video on demand program at four light rail stations.
