

CONSTRUCTION NOTICE PG&E UTILITY RELOCATION

WHAT: PG&E work crews plan to relocate gas and electrical utilities. Work will involve drilling underneath existing sidewalks and landscaped areas.

WHERE: Utility relocation will occur along Palo Verde Common's south sidewalk (model home area) and landscaping. Excavated holes for drilling will be located on Pistache Terrace and Ebony Terrace entrances.

WHEN: Beginning week of August 31
Ending approximately 30 days
Monday through Friday
7:00 a.m. to 7:00 p.m.

IMPACTS: Excavation noise (early in project), reduced sidewalk access, temporary road paving.

Seven day minimum requirement for power disruptions

WHY: This work is required to make local flood control improvements in the Kato Road vicinity. It will minimize future disruptions during grade separation construction.
