**BOARD OF DIRECTORS WORKSHOP**

32. **Measure A Program Update Process**

33. **Status of Key Measure A Projects**

34. **Planned Upcoming Board Actions for Measure A Projects**

Michael T. Burns, General Manager, directed the Board Members and the audience to the PowerPoint presentation entitled Measure A Program Strategy. He stated agenda items 32, 33 and 34 will be presented as one item. He discussed the process on how to proceed with the Measure A program and reviewed the status of various projects. Mr. Burns stressed the importance to have decisions made by May for incorporation into the capital budget to be adopted in June.

Mr. Burns noted Measure B passed, Measures C and D received favorable outcome. In addition, Proposition 1A, the High Speed Rail, passed on the State ballot. Staff is looking forward to working with the new federal administration, reauthorization of the
Mr. Burns stated in April 2008, a financial analysis demonstrated the Measure A Program did not have enough revenue to complete all projects in the program.

Mr. Burns reviewed the financial crisis on the local, state, national and international levels. The current financial environment has created more challenges to forecast long-term financial outcomes. He suggested short term revenues are more certain and the Measure A Plan should be aligned with two-year capital and operating budget. He recommended limiting borrowing in the near term and being prepared to take advantage of additional funding opportunities. The Strategy for Measure A would include: development of a two-year capital program for Measure A; accounting for obligated Measure A funds; and review of Program of Projects.

Mr. Burns provided project updates on BART (Bay Area Rapid Transit), Caltrain, Light Rail Transit, Bus Rapid Transit, Highway 17 Service, Palo Alto Transit Center and Dumbarton Rail. He noted the City of San Jose is looking at an Airport People Mover with public and private partnership options.

Board Member Gage asked if the cost of maintenance for BART has been determined and will that cost be covered by the 1/8 cents tax? Mr. Burns responded the 1/8 cents sales tax covers the operations and maintenance cost. Board Member Gage stressed the need to track and report on ridership especially on transit oriented development.

Board Member Kishimoto stated it is important for PAC, TAC and CAC to be fully involved in the Measure A and VTP 2035 discussions and their recommendations incorporated in the staff report. She queried if Measure B will cover operating costs and if there will be any assurance that BART’s projections for operating costs will not be underestimated. Mr. Burns responded the best financial people are working on the estimates and the estimates are based on the formula and criteria that are in the agreement with BART.

Board Member Casas stated from a financial planning standpoint on Measure A, a 2 year budget cycle allows us to accomplish near term goals, but we also need 10 or 30 year financial planning models. He stated it is important to look at full project timelines for high priority so when the Board is making decision, it is clear where it fits in the overall plan. He also stressed the need to focus on maintaining our core services.

Board Member Reed was confident with the direction proposed. On the federal stimulus package, he suggested all local organizations work together and have projects that are high on the list ready for funding.

Board Member Cortese took his seat at 10:35 a.m.

Board Member Campos stated it is important to keep track of ridership levels. She stressed the importance for VTA Board of Directors and staff to work closely with the federal transportation bill, and the desire to invest in infrastructure as part of the economic stimulus at both the state and federal level.
City of San Jose in making sure that we move the Santa Clara/Alum Rock project in a timely manner.

Ex-Officio Board Member Yeager stated BART is the priority project. He stressed the need to keep the project moving and obtain the necessary funding. He stated we need to go to Sacramento and lobby for this project.

Alternate Board Member Cortese stated all funding decisions should be made on the basis that BART is the priority. He asked if the PowerPoint reflected a prioritization of projects. Mr. Burns responded that was not the intention. The Caltrain and BART projects were the focus of the discussion, so they were presented first and second. Mr. Burns added the Caltrain package includes electrification and an overall modernization program.

Board Member Cortese left his seat at 10:50 a.m.
Board Member Williams took his seat at 10:50 a.m.

The Board returned to Awards and Commendations at this time.

Chairperson Kniss congratulated Vice Chairperson Sandoval and Board Member Liccardo as Chairperson and Vice chairperson for 2009.

Chairperson Kniss acknowledged the presence of Board Member Williams and asked him to step forward to receive a commendation. Vice Chairperson Sandoval read the resolution to be given to Board Member Williams.

Board Member Williams thanked the Board for their consideration and gave a brief accounting on how he joined VTA. He was happy he can go back to the community and say he had achieved his goals. He expressed his appreciation to the Board. He did not want to leave the Board without getting the necessary resources to bring BART to San Jose. He thanked everyone and stated he will continue to do all he can to help make the city and county a better place to live.

The Board Members stated their appreciation to Board Member Williams:
Chairperson Sandoval appreciated his service on the board.
Board Member Gage thanked him for all the years of service to the Board.
Board Member Pyle thanked him for being such a good colleague.
Board Member Liccardo thanked him for all his service.
Board Member Chu stated it has been a pleasure working with him.
Board Member Campos said she will miss him as a colleague and friend.

Mr. Burns thanked Board Member Williams on behalf of all staff at the VTA. He appreciated the support he had given to staff, his interest in transportation, his interest in VTA, his intellect and his unending optimism.

Chairperson Kniss left the meeting at 11:00 am.
Vice Chairperson Sandoval presided over the meeting and returned to Measure A Workshop.

Board Member Sellers stated it is important to maintain existing services. He added the need to monitor if existing services are worthy of continuation and justify continuation through ridership and the necessity of serving the community. He stated we should take advantage of opportunities and good financial resources.

Ex-Officio Board Member Chu noted the difficulty of forecasting 30 years out. He agreed there is a need to look beyond 2 years. He stressed the importance of timing, the need to do as much planning as possible, and have the ability to move a project quickly to get funding. He stated, outside of Measure A, we need to look at congestion management projects the same way.

Board Member Liccardo stated he supports the General Manager’s two year plan. He also supports Board Member Reed’s idea about federal stimulus money. He stated our ability to speak with one voice in this region is important to be able to secure federal funding.

Vice Chairperson Sandoval agreed the two year plan is good. The thirty year plan provides a long term view in making budgetary decisions. She noted the need to leverage dollars that fit in the projects we currently have under Measure A. She stressed the importance of being advocates for the Board plan and the importance of lobbying on the same set of projects. She stated she is honored to be selected as the next chair and is looking forward to working with everyone.

Board Member Williams stated he encouraged the direction we are going in and looks forward to being of help.

Ross Signorino, concerned citizen, stated he would like to see a feasibility study on bringing BART to downtown San Jose. He also stated the bus service is very important and maximum effort should be put in that regard.

Peter Skinner, representing the Silicon Valley Leadership Group, congratulated the Board for their leadership in placing Measure B on the ballot. He stated the successful passage of Measure B demonstrates the continued support for BART as the priority project on the Measure A list. The Leadership Group is committed to help with the projects.

Josue Garcia, Building Trades Council, stated the BART project will bring hope to working families who are unemployed.

Ann Tudino, concerned citizen, stated she is a disabled passenger and has been a VTA rider for 30 years. She expressed concern with the attitude of some of the drivers. Vice Chairperson Sandoval referred Ms. Tudino to Jim Lawson, Senior Policy Advisor, for assistance.
