Steve Palmer, Vice President of Van Scoyoc Associates provided a report to the Board highlighting the following: 1) transportation authorization legislation; 2) FY 2011 transportation appropriations process; and 3) transportation issues at the federal level.

Chairperson Liccardo suggested phasing the receipt of funds for the Silicon Valley Rapid Transit (SVRT) if the project is not awarded the full funding grant agreement. Mr. Palmer responded that it is possible to do a phased approach for the SVRT project if it does not get supported. He noted the project is far along in the agency review process, is positively received by the Federal Transportation Administration (FTA), and has passed the cost effective rating. There is no reason to believe that it will not get approved.

On order of Chairperson Liccardo and there being no objection, the Van Scoyoc Associates Federal Advocacy Report was received.

REGULAR AGENDA

19. **SVRT Program Update**

Charles Stark, BART Executive Manager for Transit System Development, provided a PowerPoint presentation entitled, BART New Vehicle Procurement Project Status. The presentation highlighted the following: 1) scope; 2) request for proposal; 3) schedule overview; 4) funding plan; and 5) next steps.

The Board expressed concern about the following: 1) the use of the vehicles purchased by Measure A funds; and, 2) that the vehicles will be manufactured in the U.S.

Mr. Stark responded that the entire BART fleet will be replaced and the 60 cars purchased by Measure A for the Extension to Santa Clara County is an addition to the purchase order replacing the entire BART fleet. He explained that the additional service to Santa Clara County requires the additional 60 railcars.

Mr. Stark noted that companies who will build vehicles are all foreign, but several have manufacturing plants in the U.S. He stated that the requirement to buy American is already in place and has high standards: 1) all steel must be produced in the U.S.; 2) 60 percent of the vehicle content should be from the U.S.; and 3) the vehicles must be assembled in the U.S.

**Public Comment**

Eugene Bradley, Interested Citizen, expressed concern about the high cost to maintain BART/SVRT vehicles.

**On order of Chairperson Liccardo** and there being no objection, the SVRT Program Update was received.

20. **Contract Award for Operations Insurance Broker**

Board Member Reed noted that he will abstain from the Agenda Item per Government Code section 84308.

Member Reed left his seat at 6:45 p.m.

Nanci Eksterowicz, Risk Manager, reported on the competitive process in awarding a contract for operations insurance broker. She noted that after the thorough evaluation, Alliant Insurance Services was selected as the recommended firm for contract award.

Board Member Larsen expressed concern about the selection process. He suggested dividing the insurance services, and contracting with both Alliant Insurance Services, and Keenan and Associates, the lowest bidder. He noted that VTA will save money in the long run.
Ms. Eksterowicz expressed concern on awarding a contract to a firm that does not have experience with these specialized transit risks.

Mr. Burns commented the savings is small compared to the millions of dollars that will be risked in hiring a firm with no experience with Public Transportation Property and Liability risks.

M/S/C (Herrera/Page) on a vote of 11 ayes to 0 no to 1 abstention to authorize the General Manager to execute a three year fixed fee contract for $213,060; with two additional one year options at $80,609 for the first optional extension and $75,862 for the second extension; for a grand total of $369,531; with Alliant Insurance Services to provide insurance brokerage and loss control service for VTA operations. Board Member Reed abstained.

Board Member Reed returned to his seat at 6:53 p.m.

Board Member Gage left the meeting at 6:53 p.m.

21. West San Carlos Station Funding Agreement

John Ristow, Chief CMA Officer, provided a report highlighting the following: 1) plan to construct the West San Carlos Light Rail Station; 2) scope of work needed for the station; 3) operations and ridership issues; and 4) funding agreement between the City of San Jose and VTA.

Board Member Kniss expressed concern about ridership issues, and the high cost to maintain and operate the West San Carlos station. Board Member Reed noted that the station is essential to all the planned development in the area. He noted that developments will bring ridership for the future station.

Mr. Ristow responded that the interest of the funds from the sale of property for the Ohlone project can be used to offset the maintenance and operating cost of the future station.

Vice Chairperson Abe-Koga expressed concern about the timing of the agreement and the ability to secure funding for the project. Mr. Ristow responded the agreement needs to be in place for the City Council of San Jose to approve the Ohlone project, which will change the zoning and enhance the development in the area. Regarding funding, he stated there are grants well positioned to construct the station because of the development involved. He noted that staff will pursue the Metropolitan Transportation Commission’s (MTC) Transportation for Local Community’s grant for the future station. He added staff will collaborate with the City of San Jose to secure other sources of funding.

The Board inquired if the funding from KB Homes can be used for other related projects. Manuel Pineda, Deputy Director of Transportation for the City San Jose, explained that the requirement for contribution stipulates that the funds be used for a Light Rail station constructed adjacent to the KB Homes site. It cannot be used for other projects.
Board Members Reed and Herrera stressed the importance of transit-oriented development, and noted that the future West San Carlos Light Rail station is a good example.

Board Member Kniss commented the West San Carlos Station Funding Agreement memorandum lacks history and background information.

**Public Comment**

Eugene Bradley, Interested Citizen, commented that the existing Line 23 already serves the area where the West San Carlos Light Rail station is planned to be built.

**M/S/C (Herrera/Pyle)** to authorize the General Manager to enter into an agreement with the City of San Jose to transfer development contributions dedicated for the West San Carlos Light Rail Station to VTA and to collaborate with the City of San Jose to pursue funding for the construction and operation of a new Light Rail Station near West San Carlos Street.
