

## **Damage Claims**

Keeping VTA BART SiliconValley (BART SV) construction sites safe at all times is paramount. However, even with the best of safety measure, accidents and damages may occur at construction sites.

If you believe that your personal property has been damaged, or that you have a bodily injury caused by conditions in a BART SV construction site, please contact BART SV Community Outreach as soon as possible at 408 934-2662, and we will refer you to our Claims Staff. In order to pursue a claim against a governmental agency you must complete a government claim form. This claim form can be obtained by downloading a copy from the [VTA website](#). You will need to include the date, time and location (including cross streets) of the incident, weather conditions and speed if incident involves a moving vehicle, names of witness(es), and also provide medical bills and/or repair estimates. You also must provide documentation of the damage. This may include the damaged property, pictures or other physical evidence to support your claim.

Please note that no payment will be made until it is determined that VTA BART SV is legally responsible for your damages. Claims must be filed within 6 months of the incident.
