QUESTIONS AND ANSWERS

SET # 1

TO : All Prospective Bidders
FROM : Cathy Clegg, Contracts Administrator
SUBJECT : Set #1 - Contract C19222 – I-280/Foothill Expressway Off-Ramp Improvements

Q1. Please refer to specification section 6.7.1 “Caltrans Permit”. Is there any costs for this encroachment permit? Prior to the bid, the general contractor is not able to get this information from Caltrans.

A1. Caltrans construction encroachment permit application costs are to be determined. This cost (if any) from Caltrans for Contractor will be fully reimbursed by VTA to the Contractor.

Q2. Cross-sections are needed for this project in order to develop a take-off of the work quantities involved. The cross sections will allow the contractor to determine the quantities for the removal and processing of dirt, asphalt, concrete and base rock. The cross sections will also allow the contractors to determine the quantity of various work items per stage. It is critical that the VTA supply the bidding contractors x-sections, or it will be difficult to quote the project.

A2. Cross-sections will be made available to the successful bidder. Please base your unit prices on the quantities provided in the bid form.

Very truly yours,

Cathy Clegg
Construction Contracts Administrator
