You will receive this notification – click "unmute myself" so people can hear you.

Phone users:

- *9 – To raise/lower hand
- *6 – To mute/unmute

Poll: How do you get around Santa Clara County?

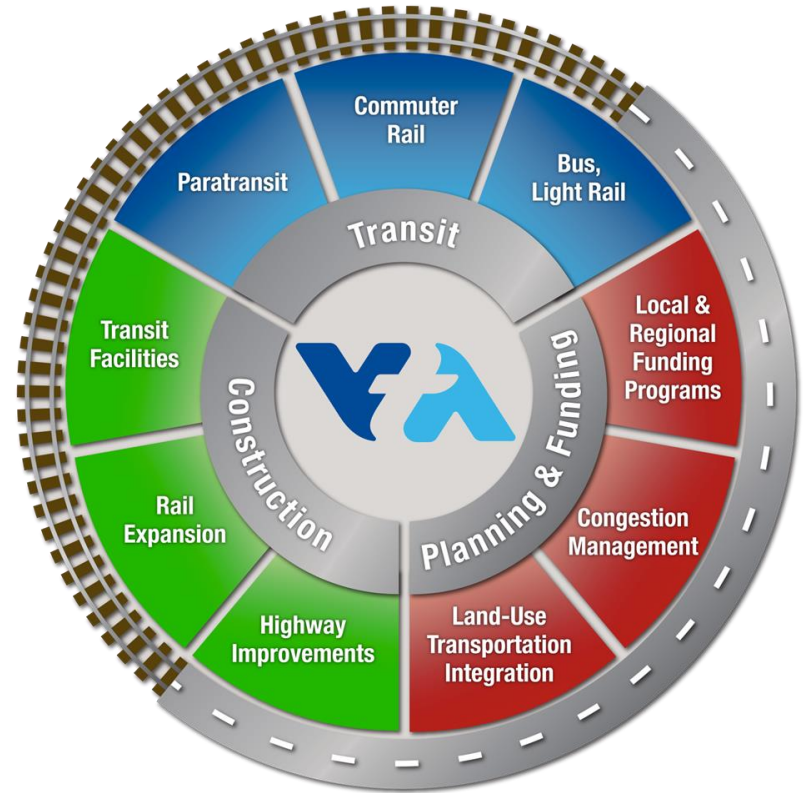

VTA's Role in Santa Clara County

VTA is more than buses and light rail. As the County Transportation Agency for the County, we also :

- Act as a funding conduit for local cities and other agencies
- Design and build transit facilities, highway improvements, and expand rail service
- Plan for congestion management and land-use
- Design, build and own BART to Silicon Valley infrastructure in Santa Clara County

The Valley Transportation Plan (VTP) is an important step to developing and delivering many of these projects and programs.

What is VTP?

Valley Transportation Plan 2050 (VTP) is the [long-term plan](#) for transportation, land use, transit, and bicycle and pedestrian planning.

The VTP:

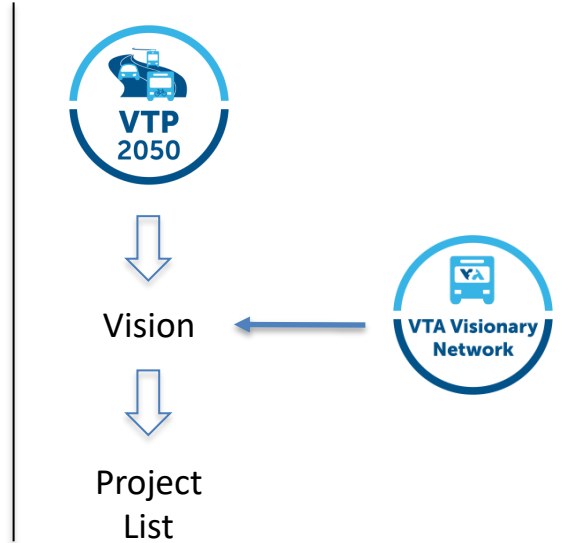

- Identifies transportation projects and programs
- Prepares agencies to secure funding for these projects
- Considers all types of travel – transit, bike and pedestrian, highways, local streets and roadway
- Will be included in Plan Bay Area updates

What is VTA's Visionary Network?

A blueprint for VTA's annual service plans to follow

A core input to VTA's Valley Transportation Plan

Santa Clara County's "North Star" for transit service to grow

Today's Format

Ask VTA has been developed as a chance for the public to have a deeper discussion about the projects and programs that VTA delivers for the residents of Santa Clara County.

Today's Topic: VTA is developing long range transportation plans that will impact residents and employees within the County for decades. These plans encompass transit planning and land use.

We're here to answer questions about:

- How transportation projects are delivered
- How transit networks and service planning efforts are developed
- Bike and pedestrian infrastructure
- How transit-oriented communities are developed
- Developing transportation goals in the years to come
- How to provide feedback and get engaged in VTA's Projects

Ask VTA: Questions and Discussion

Thank you!
