

## FACT SHEET: VTA's BART Silicon Valley Phase II Extension Project

### Project Benefits

VTA's BART Silicon Valley Phase II Project is a six-mile, four-station extension that will bring BART train service from Berryessa/North San José through downtown San José to the City of Santa Clara. The Phase II Project is planned to include an approximately five-mile tunnel which includes three underground stations (Alum Rock/28th Street, Downtown San José, and Diridon), one ground-level station (Santa Clara), as well as general and maintenance facilities. Benefits from the Phase II project include:

Fast and reliable train service that will connect BART to VTA light rail and bus, Amtrak, ACE, Caltrain, Capitol Corridor and intercity bus service.

Improving transit hubs to accommodate rail, bus, bicycle and pedestrian travel modes to improve and expand healthy and green travel options.

Partnering with the community to deliver a project that realizes the surrounding community's vision for each station area.

Investing in transit-oriented development to provide increased access to jobs, housing and education, making commuting without a car possible.

In addition to creating thousands of jobs throughout design and construction, the Phase II Project will boost the economy, which means increased growth and more jobs long after the project ends.

Commercial, retail, and residential development will lead to higher sales tax and property tax revenues, allowing for continued investment by local government.

### BENEFITS IN 2035

Weekday riders on VTA's BART Phase II Extension

**52,000**

**27 Million**

Reduction of Annual Vehicle Miles Traveled (compared to if the project were not built)

CO<sub>2</sub> CO<sub>2</sub> CO<sub>2</sub>

**22,340**

Reduction of Metric Tons of CO<sub>2</sub> from vehicular emissions

### THE PROJECT'S TRANSIT-ORIENTED JOINT DEVELOPMENT WILL INCLUDE

**1.675 Million sq. ft.**

of new office space

**160,000 sq. ft.**

of new retail space

**500**

new housing units

### PHASE II MODES OF ACCESS TO BART SYSTEM

## Ring the Bay

VTA's BART Silicon Valley Phase II Extension connects the counties of San Francisco, San Mateo, Alameda, Contra Costa and Santa Clara – finally ringing the Bay Area with rapid rail service.
