

Community-Based Transportation Plan Morgan Hill

Help Us Improve Transportation in Morgan Hill!

How would you improve transportation in your community? We need your help to identify transportation challenges and determine projects that are the most necessary to help you travel between your home, job, school, grocery stores, hospitals and other destinations more smoothly.

What We Are Doing

Valley Transportation Authority (VTA), through funding from the Metropolitan Transportation Commission (MTC), initiated a Community-Based Transportation Plan (CBTP) in partnership with the City of Morgan Hill. The resulting Morgan Hill CBTP will help VTA and the community identify future transportation improvements and potential funding sources for these projects. Improvement projects in the final plan can address important issues, including, but are not limited to:

- Bicycle and pedestrian connectivity,
- Public transportation amenities,
- Local roads & streets improvements and,
- Integration of technology with transportation

Get Involved!

The success of the Morgan Hill CBTP depends on input from people in neighborhoods throughout Morgan Hill. In early spring and summer, VTA will be holding several focus group meetings to find out what specific challenges you face in your daily travels and what you think might help to solve these concerns.

There are a variety of ways for you to get involved:

- Attend a focus group
- Set up a briefing for your organization
- Share your thoughts via telephone or email

Project Partners
