SUMMARY
Use of this Report

• Readers of this report should note that governance is distinct from management. While both are in sync in successful organizations, this report did not assess VTA’s management or operations.

• This report contains RSM’s recommendations and identifies a number of actual and perceived issues with VTA’s governance structure.

• These recommendations have not been adopted or approved by the VTA Board or Ad Hoc Board Enhancement Committee (BEC), as of the date of this report. We anticipate that certain recommendations will generate feedback and discussion, from the Board and outside groups.

Board Responsibility

• The ultimate acceptance and decision to implement any of these recommendations is the responsibility of the VTA Board.

• Many recommendations will require further Board discussion and agreement, and vetting by VTA’s General Counsel for potential Enabling Act, Brown Act or other implications.

• The Road Map provides our input on the timing and sequencing of the implementation of the recommendations, upon final acceptance. Certain recommendations will be more challenging and require more time to implement. All adopted recommendations will require a detailed implementation plan.
Background:
Board governance was identified as a priority by VTA’s 2019 Board of Directors Chairperson. The Ad Hoc Board Enhancement Committee (BEC) was established to look at a broad range of board governance practices to identify ways that Board engagement and effectiveness could be improved. RSM US LLP was engaged to perform an independent and unbiased evaluation.

Summary:
This report represents the culmination of significant research, dialogue and analysis over the last five months. We provided multiple methods to receive community and public input through live meetings, a town hall webinar, a VTA website survey and public meetings with the BEC, the VTA Board and other Committees. This report provides 27 observations and recommendations, as well as supporting research and facts, in a transparent fashion. These recommendations may require further Board discussion and agreement, and vetting by VTA’s General Counsel for potential Enabling Act, Brown Act or other implications.

Opportunity:
VTA’s Board has the opportunity to utilize this report to improve its Board and Committee governance. We believe that these leading practice ideas can support VTA as it continues to evolve in response to Santa Clara County’s demographics, transit ridership, highway, and congestion management needs.

Appreciation:
We thank the VTA Board Enhancement Committee, Board and Committee members, management, community organizations, public participants, and benchmark transportation agency representatives for their time and thoughtful input.
RECOMMENDATIONS AND HEAT MAP
RSM Board Governance Framework

Our Framework focuses on the following board governance fundamentals. Our work streams and recommendations have been aligned with this framework.

High performing boards focus on **continuous improvement** across these fundamental areas.

- **Strategy, Innovation and Future Vision**
- **Board Capabilities and Structure**
- **Accountability**
- **Engagement**
- **Policies, Procedures and Communications**
- **Performance Monitoring**

Summary Recommendations and Problem Statement

Key Themes and Problem Statement

• We heard a number of issues, which are articulated and analyzed further in the body of this report.
• While there was not always consensus, some of the key challenges and problems were identified as:
  o Relative engagement of individual Board members
  o Local jurisdictional viewpoints vs. a regional perspective
  o Voting patterns for small cities vs. big cities
  o Too much information, or not the right information, provided at Board or Committees meetings
  o Execution on lists of tactical projects or initiatives, without tying into an overarching plan

Key Recommendation Categories

• Our recommendations attempt to define and address the root cause of many of the above symptoms.
• Broadly, our individual recommendations are aggregated into the following categories:
  o Increased strategic thinking and focus as established by the Board, and executed by Management
  o Initiatives to improve engagement, participation and value of Board members
  o Revised Committee structure and meeting management processes

Introduction to Heat Map

Purpose
• The heat map is intended to visually depict all of our recommendations, arrayed by “Complexity / Level of Effort” and “Priority”.
• Each sector within the Heat Map is color shaded, to help represent a higher or lower value.

Definition
• “Complexity / Level of Effort” - the level of involvement required from VTA or others, along with the likely ease or difficulty of implementation of the governance recommendation. For example, Low Complexity recommendations could require modest time and improve the related process or area in a minor, although still important, way.
• “Priority” - the assigned importance and urgency of the recommendation. For example, High Priority recommendations could improve multiple processes, address core issues and significantly influence VTA’s ability to achieve the governance objective.

Notes
• Several recommendations are intertwined. While they are plotted separately to express the intent of the recommendation, many topics should be considered together for maximum effectiveness. Please see the “Road Map” section, where the recommended actions are shown in a suggested implementation timeline.
• The majority of recommendations may be implemented through Board policy change. Recommendations summarized by type of change are:
  o Policy - 17
  o Administrative Code - 7
  o Enabling Act - 3

Legend

- **Quick Wins**
  - Require fewer resources to implement and offer incremental benefits but promote successful change and build momentum.

- **Transitional Improvements**
  - Require more effort but enable greater impact and benefits affecting one or more governance fundamental areas.

- **Strategic Initiatives**
  - Require the most planning and effort but yield the highest impact and benefits across multiple governance areas.

ROAD MAP AND IMPLEMENTATION TIMEFRAMES
Introduction to Road Map and Implementation

Purpose

• The Road Map is intended to provide visual alternatives on the timeline and order of implementation of the recommendations.
• Implementing the recommendations and road map will require ongoing Board leadership and a dedicated management team.
• Recommendations that can be enacted through policy changes or Administrative Code updates are identified separately from those that may require changes to VTA's Enabling Act or legislation.

Critical Success Factors

• The implementation team will need:
  o Ongoing Board communication and direction
  o Stable and supportive management and participation
  o Confirmed prioritized areas of improvement, including quick wins and momentum for longer-term initiatives
  o Detailed implementation plans, including assigned resources, and periodic organization-wide communications
  o A clear and consistent communications plan with VTA Committees and staff, external parties and transportation partners
  o Change management during transitions
  o Ability to execute the ongoing improvements
  o Recognition of the reputational risk of failing to effectively implement change
Road Map Summary

This Road Map is meant to be a representative example view for developing a working timeline of prioritized initiatives. It should consider project sequencing, logical dependencies, required resources, and legislative strategy.

- Establish implementation team and priorities
- Hold Board workshop(s)
- Begin “quick wins” that don’t have other dependencies
- Build momentum for change
- Launch medium-term Transitional Improvements
- Launch selected prioritized high impact projects
- Develop a series of dependent projects that require thoughtful sequencing for success

This Road Map is meant to be a representative example view for developing a working timeline of prioritized initiatives. It should consider project sequencing, logical dependencies, required resources, and legislative strategy.

PROJECT OBJECTIVES, APPROACH AND METHODOLOGY
RSM’s Governance Assessment Approach

An unbiased, independent diagnostic evaluation that helps boards identify key initiatives that lead to improved governance and mission achievement.

Through discovery and analysis of clients’ governing practices, we help boards strike the right balance of optimized stewardship, accountability and effective governance.

**Discovery**

We take the time to understand board capabilities, structure, and governing practices.

**Analysis**

We survey, observe, and interview board members and senior executives and compare to leading practices.

**Roadmap**

We provide a detailed strategy and roadmap to put the organization on the right track for success.
## Project Background and Purpose

### Background

- VTA Board Chair identified Governance as a 2019 priority
- Ad Hoc Board Enhancement Committee (BEC) established
- RSM engaged to perform independent and unbiased study
- Project kick-off in August; report and deliverable in December
- Five BEC public meetings and presentations

### Objectives

- Seek input from Board, Member Agencies, community stakeholders and the public
- Benchmark to national transportation organizations
- Identify leading practices (public and private sector)
- Provide performance and effectiveness options and recommendations
VTA Overview

VTA Organizational Facts

• Multiple responsibilities – bus, light rail, highways, bike and pedestrian, congestion management, countywide planning

• One of 26 transportation providers in Bay Area
  o Partner with multiple agencies, including Caltrain, Altamont Corridor Express (ACE0, Highway 17, and Capital Corridor

• Metrics (fiscal year 2020):
  o Operating budget: $505.4 million
  o Capital budget: $216.8 million
  o Headcount: 2,150 FTEs
  o Ridership: Bus 27.0 million; Rail 8.4 million

• Board composition:
  o 12 members and 6 alternates, and 3 ex-officio (non-voting)
  o Members represent 16 jurisdictions (county-wide)
  o All elected officials
## Project Scope

### Overall Scope

- **VTA Board and Committee decision-making processes**
  - Not individual VTA Board decisions, or individual city projects or grants
  - Not a review of operations or management

- **Relevant studies and information:**
  - Organizational Reports by consultant(s)
  - California State Auditor Report
  - Grand Jury reports, Cities and VTA responses
  - National Transit Database (by FTA)

### Scope Areas

- **Board Selection Methods**
- **Average Board Size**
- **Term Length: Board members, Chair and Vice Chair**
- **New Member Orientation**
- **Meeting Frequency**
- **Committee Structure**
- **Transit / Transportation Board Responsibilities**
- **Board Effectiveness Self Ratings Areas**
- **Improving Effectiveness**
- **Measures to Assess Board Effectiveness**
Why is VTA Assessing Its Board Governance?

Key Themes and Background Considerations

- VTA's Board is seeking to enhance its governance effectiveness, in accordance with its fiduciary role
- VTA's Board composition was created over 28 years ago
- VTA's Governance structure and board member selection process is relatively unique
- Santa Clara County is one of the fastest growing counties in CA; and is among the nation’s most congested urbanized areas
- There is some public perception of leadership challenges (from the BART project, budget and/or route discussions)
- VTA's governance complexity is increased due to the multiple transportation providers / partners in the nine county Bay Area region
- VTA's governance responsibility includes multiple modes (bus, rail, highway, congestion management)
- There is some desire for change among Board members, but no apparent consensus
- Some VTA Board members feel that members' engagement and/or accountability can be increased
Project Challenges

Items Considered During Our Review

- There have been limited studies on transportation governance

- “There is no universal formula for what transit Boards should look like or how they should function”
  - From “Public Transit System Boards: Organization and Characteristics” study by Transportation Research Board.

- Local agency connecting services and overlapping riders

- VTA has limited “peers” from an operational size, modes of service, breath of responsibility, and governance perspective

- VTA Board and Member Agencies achieving consensus

- Some changes may be required to VTA’s state enabling legislation

- Implementation requires dedicated resources, and some timeframes may be lengthy
RSM Board Governance Framework

Our Framework focuses on the following board governance fundamentals.

Our work streams and recommendations have been aligned with this framework.

High performing boards focus on **continuous improvement** across these fundamental areas.

- Strategy, Innovation and Future Vision
- Board Capabilities and Structure
- Accountability
- Engagement
- Policies, Procedures and Communications
- Performance Monitoring

See definitions and leading practice examples on slide 25.
RSM Board Governance Framework: Definitions

**Strategy, Innovation and Future Vision**

- Members devote more time to generating ideas and affirming key strategic priorities for the organization. Accordingly, board meetings have more time available for structured and non-structured strategic thinking about the way forward.
- Boards should balance time spent on current monitoring of the organization with future visioning.
- Societal changes and technological developments require constant adaptation and innovation, both in the organization’s operations, and in how it identifies and addresses the changing needs of constituents.

**Board Capabilities and Structure**

- The best performing boards are more than the sum of their parts: the members ideally share a common goal in the organization’s mission and work well together to achieve this end.
- A good balance is created including: skills and expertise, a diversity of background and thinking, and having the right number of members, committees, project teams and task forces.

**Accountability**

- Board members have ultimate fiduciary responsibility but they also need to be aligned to organization’s core purpose.
- Governance is about setting the agenda, challenging assumptions about the organization, and identifying the underlying values that drive strategy to determine “what exactly are we trying to accomplish?”…and demonstrating active governance to achieve aligned objectives.

**Engagement**

- Members commit and engage, apply their talents, and where appropriate, consult with constituents and other interested parties to provide the desired level of individual contribution optimizing the collective board’s impact.

**Policies, Procedures, and Communications**

- The board directs the affairs of the organization, and ensures that it is financially stable, well-run, and delivering outcomes for the benefit of the constituents it serves.
- A solid foundation of policies and procedures and effective platform for the board members to conduct business and communicate are necessary.

**Performance Monitoring**

- Continual appraisal of board members and their relative performance is considered to be a leading practice for ensuring that engagement and contributions are sufficient.
Assessment Work Streams

Our approach has included these multiple work streams:

- Current State Analysis
- Comparison Against Leading Practices
- Board Member Interviews and Survey
- Community and Stakeholder Outreach
- Transportation Agency Benchmarking
- National Transportation and Corporate Research
- Compliance with Governing Policy
- Periodic Reporting
Documents Reviewed

Documents

Strategic Planning: Where is the Organization Going?

Strategy sets the course for how the organization will achieve its vision and mission.

Make strategy continuous
- Link executive performance to strategic achievement
- Link strategy and budget
- Strategy and outcome focused board and management meetings
- Transparent reporting processes and systems

Incorporate strategy into everyone’s role
- Communication / management training
- Strategic awareness
- Measured outcomes
- Linked incentives where possible

Align the organization to foster accountability
- Cascade to process level
- Cascade within key processes
- Align within and across scorecards

Define the shared vision and “strategic destination”
- Board and Executive Team commitment
- Mobilize change
- Set common definitions
- Defines what you do and don’t do

Translate strategy to operational tactics
- Develop and align tactics throughout the organization
- Set measurable goals and tactics
- Gain agreement on strategic alignment
- Create scorecards to measure

**Cascading** – Flowing the strategic priorities and tactics throughout the organization, in an aligned and measurable fashion
### Strategic Planning: Cascading Example

#### Strategic Priority
- Board Incorporates Values, Sets Policy and Strategic Direction
- Management Creates Action Plans and Performance Measurements
- All Staff Execute Roles and Obtain Performance Feedback

#### Objective
- Continually improve service and safety experiences and perceptions for customers and the public
- Provide safe and efficient services to our customers
- May have multiple objectives

#### Measurement KPI
- On-time performance
- Accidents per 100k miles
- Complaints per 100k riders
- Ridership
- Customer Satisfaction

#### Target
- 82.4%
- 0
- 29
- + 3%
- 86%

#### Tactics
- Ongoing campaigns to update constituents on safety trends
- Detailed programs for investigating and mitigating unsafe activities
- Operate a covered watch schedule 24/7

**Purpose:** To assess VTA’s themes and topics, based on strategic planning definitions. (See prior slides for definitions.)
Priorities and Strategies Comparisons (continued)

Analysis and Comments

• We assessed stated topics, priorities or strategies in five separate, publicly available documents
  o While these documents had separate purposes, we looked for consistency in messaging
  o There was minimal correlation between the Strategic Plan, the 2019 VTA Priorities, and the 2018 and 2019 Chairpersons’ priorities

• There were 24 separate themes identified in the documents
  o Only three topics were mentioned three or more times: Financial Stability, Transportation Innovation, and Measure B

• There were no stated performance measures, metrics or action plans
  o There has been follow-up activity related to several topics
  o VTA Divisions have their own additional goals, priorities and performance metrics
  o There is reference in the Budget document to the strategic themes

• The 2017 – 2022 Strategic Plan was adopted unanimously by the Board at its December 8, 2016 meeting
  o Staff led the effort over 18 months to meet with employees, unions, and the Governance and Audit Committee to gather input
  o A two-year Business Plan was to be developed, including implementation goals for each of the strategic goals, in coordination with the FY 2018 and 2019 biennial budget. However, it has not been completed.
  o The Citizens Advisory Committee (CAC) recommended that specific metrics and accountability be included
  o The Bicycle and Pedestrian Committee recommended the Plan not be adopted because it did not include specific goals

# Recommendations: Strategic Plan

## S1. Revise the Strategic Plan, and Add Performance Measures

<table>
<thead>
<tr>
<th>Observation</th>
<th>Recommendation</th>
</tr>
</thead>
<tbody>
<tr>
<td>VTA has identified over 24 disparate strategic themes, action values or Chairpersons’ priorities over the last two years. The Strategic Plan approved by the Board in 2016 reflects primarily core values and employee-oriented themes.</td>
<td>a). Create a Board-driven, comprehensive Strategic Plan, which will identify the VTA’s goals and priorities, set operational tactics to implement them, and measure the results on a recurring basis.</td>
</tr>
</tbody>
</table>
| VTA does not have a traditional strategic plan, with related tactics. There are no identified enterprise-wide performance measures. It is not clear whether any metrics are built in the General Manager’s or senior leadership’s performance objectives, to help drive strategy into the organization. Therefore, the Board can not perform an effective annual assessment against its strategic goals.                                                                                     | b). To accomplish this:  
  • Utilize an offsite facilitated retreat or a series of workshops  
  • Establish the Board’s active “tone from the top”, while working collaboratively with management  
  • Re-focus and align VTA’s strong execution abilities to the strategies  
  • Revise Board Memos to indicate an item’s alignment to a strategic goal  
  • Assess potential projects and budget items vs. the strategies  
  • Conduct and publish an annual assessment of the Board’s performance against the overall goals |
| Most of the benchmark agencies had extensive strategic plans, driven by their Boards, with accompanying tactics and measures. Some plans were tied into budget objectives and project criteria.                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                             |
## Recommendations: Strategy, Innovation and Future Vision

### S2. Establish an Innovation Advisory Committee

<table>
<thead>
<tr>
<th>Observation</th>
<th>Recommendation</th>
</tr>
</thead>
</table>
| VTA’s vision is to “To innovate the way Silicon Valley moves”. In 2019, VTA created an Office of Innovation, drafted an Innovation 2020 plan, and identified pilots or future deployments. VTA also has an Innovation Center meeting room. VTA’s innovation efforts have been impacted by minimal Board direction, limited staff resources and lack of dedicated funding. Incremental ideas, such as bus electrification and accessible electric autonomous vehicles, remain in various planning stages. Several benchmark agencies had active Innovation groups. Recent examples of transit innovation ideas include: | S2 a). Create a new Innovation Committee, consisting of a hybrid of Board members, tech company representatives, and visionary Silicon Valley leaders. The mission of the Committee would be to:  
- Encourage broader innovation, by considering non-incremental, riskier and industry leading ideas  
- Support the VTA Office of Innovation’s development  
- Seek external investment or incubation funding, to create a sustainable R&D budget  
- Create more partnerships, to enhance idea generation  
- Leverage Board members’ contacts with transportation leaders at local tech companies  
- Establish an “Unsolicited Proposal” program, to assess creative or privately funded ideas from vendors and contractors  
- Follow-up on the Future of Transportation Workshop ideas (including first and last-mile connectivity, drastic vs. incremental approach, and new business models) |
| 3D printed parts  
- Mobility as a Service (MaaS) transit apps that allow both ticket purchase and Uber/Lyft ridesharing orders  
- Unsolicited proposals for new processes or technology  
- FTA’s Integrated Mobility Innovation demonstration program |

## Recommendations: Standing Committees

### B1. Empower Standing Committees and Chairs

<table>
<thead>
<tr>
<th>Observation</th>
<th>#</th>
<th>Recommendation</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Administrative Code states that Standing Committees, comprised solely of Board members, “shall serve in an advisory capacity to the Board” and “review and recommend” Board policy decisions. Standing Committees generally do not have any capacity to bind the Board on any policy matter or any dollar value. The Rules of Procedure do allow the Governance and Audit Committee to approve administrative bylaws, changes to the Auditor General’s workplan and other duties.</td>
<td>B1</td>
<td>a). The Board should grant expanded approval duties to all of its Standing Committees. The Committees should be empowered to bind the Board in defined circumstances, or up to a defined dollar threshold (i.e., $500,000 above the General Manager’s approval authority).</td>
</tr>
<tr>
<td>The separate Measure A and Measure B oversight Committees, comprised of citizens, have oversight responsibilities and the ability to bind the Board on limited ballot-defined matters, such as the selection of an independent auditor.</td>
<td></td>
<td>b). Standing Committee Chairs should present and actively lead discussion of their Board agenda action and consent items. The Board agendas should be re-aligned by Committee.</td>
</tr>
</tbody>
</table>

Permitting the Committee Chairs to present their topics will empower their Committees to make better use of their members’ time, and help develop members’ expertise in their assigned areas. Any Board member would still have the ability to discuss, challenge or pull any Committee item off consent.
## VTA Board and Standing Committee Schedule

**Purpose:** To summarize scheduled Board and Standing Committee meeting times, during fiscal year 2019.

**Observation:** All of the five Standing Committees met less than the scheduled number of times during fiscal year 2019.

**Notes:**
- VTA's Rules of Procedure state: “Standing Committee meetings **shall generally be held once a month** when there is sufficient business for the committee to consider, or as otherwise determined by the Board. The Governance & Audit Committee and the Capital Program Committee shall meet at least once each quarter”.
- Committee Chairs have the discretion to cancel or postpone meetings.
- VTA in practice has historically not held Board meetings in July, and has scheduled multiple meetings in other months.

# Recommendations: Standing Committees

## B2. Hold Standing Committee Meetings On One Day

<table>
<thead>
<tr>
<th>Observation</th>
<th>#</th>
<th>Recommendation</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Administrative Code states that Standing Committee meetings are generally to be held once per month, and the Governance and Audit and Capital Program Committees are to meet at least quarterly. Three Committees are scheduled monthly on the 3rd Thursday. Board meetings are scheduled monthly on the 1st Thursday. Given this timing, business conducted at 3 of the 5 committees is brought to the Board within two weeks. All of the five Standing Committees met less than the scheduled number of times during fiscal year 2019. (See our recommendation C7 on Meeting Cancellations).</td>
<td>B2</td>
<td>a). Schedule the Standing Committees on one day.</td>
</tr>
</tbody>
</table>

b). Limit each meeting to two hours, and encourage Chairs to manage meetings to focus on the most critical and timely issues. (Also see our separate observation C1 on Meeting Management).

c). Retain the timing of Board meetings to be scheduled two weeks following the Committee meetings, to facilitate timely Board decision making and receipt of the Committees’ business and policy recommendations.

d). If lack of a quorum delays a meeting, allow other Board members who are on-site to be sworn in for one meeting only.

This meeting cadence could increase attendance, as well as reduce the need for Alternates. Staff would have adequate time to prepare between meetings.
## Recommendations: Standing Committees

### B3. Reduce the Number of Standing Committees and Realign Certain Duties

Recommendations: Reduce Duplicative Presentations

B5. Reduce Duplicative Presentations to Multiple Committees

<table>
<thead>
<tr>
<th>Observation</th>
<th>Recommendation</th>
</tr>
</thead>
<tbody>
<tr>
<td>VTA's Standing Committees have well-defined and generally distinct duties, as specified in the Administrative Code.</td>
<td># B5 a). Bring agenda items to the primarily responsible Standing Committee. Benefits would include: • Better alignment of topics to Committee member skillsets • Empowerment of the primary committee, if those members know that the topic will not be reviewed several more times. • Faster decision making, since less time is required between committee meetings and Board discussion. • More efficient use of staff time</td>
</tr>
<tr>
<td>However, we observed that agenda items may be brought to multiple Standing Committees, for action or information. Eleven items were brought to three or four committees, from January 2018 through November 2019. This process is time-consuming, can result in conflicting input to staff, and may not result in consensus feedback to the full Board. Also, the volume of Administration &amp; Finance (A&amp;F) Committee agenda items has increased. This change in practice could bifurcate the discussion of the same topic, with A&amp;F discussing the financial attributes of an item, and another committee addressing the subject matter. Examples include technology projects and the Sheriff’s Office security contract.</td>
<td></td>
</tr>
<tr>
<td>b). Bring broad items of interest to multiple Committees to the full Board, and facilitate the appropriate discussion. In some cases where consensus was not reached at a Committee meeting, we noted that members expected to re-visit the topic at the full Board meeting.</td>
<td></td>
</tr>
<tr>
<td>c). Offer individual briefings to members who have a stated interest in a certain topic, or provide the relevant committee meeting information.</td>
<td></td>
</tr>

B6. Revise Member Agency Appointment Guidelines and Adopt a Nominating Process

Heat Map Rating
Complexity: High
Priority: High

Observation
The Governance and Audit Committee approved “Recommended Guidelines for VTA Member Agency Use in Making Appointments to the VTA Board of Directors or Policy Advisory Committee” in 2015. The Guidelines apply to all member agencies and are intended to make the Board appointment process more efficient and help identify the “most qualified and engaged representatives”.

However, the Guidelines are solely recommendations. The Board lacks any feedback mechanism or nominee assessment process. The Board member survey identified concerns about the selection process, qualifications and subsequent member engagement.

LA Metro uses an external selection agency to nominate and appoint members from 88 city jurisdictions broken into four population-based sectors. This can result in:
- Elected officials who express a desire to serve on the transit board.
- Competition to be elected by vote of their city peers to the transit board.
- Candidates who acknowledge their commitment and responsibility.
- A sense of desirability for the board positions, rather than a sense of duty.
- Identification of members with specific subject matter expertise.

<td>recommendation a). Charge the Governance and Audit (G&amp;A) Committee with enacting a process to encourage qualified candidates, vet them upon recommendation from any of the member agencies and formally nominate them for a Board position.</td>
</tr>
</tbody>
</table>

The Enabling Act appears to neither require nor prohibit the Board’s ability to vet, review or interview appointees from the member agencies. The Act states that appointments are made by the County Board of Supervisors, the San Jose City Council and the “city councils of all other cities, as provided by agreement among those cities”.

VTA’s 2016 Measure B Committee selection process is a successful example of the use of an application, vetting and nomination process by the G&A Committee, to approve members.

Analysis: Population, Sales Tax and Ridership

Analysis

- **Purpose:** To assess each jurisdiction’s proportionate share of various metrics.
- **Observation:** San Jose’s percentage of the total metrics evaluated ranged from 44% to 68%.
  - Current Board seats for city groupings would remain the same (if there were no other changes).
- Investment, capital projects or grant funding may span multiple jurisdictions and was not readily estimable for each city.
- **Conclusion:** San Jose Board seats allocated pro-rata on these measures (and assuming 12 seats) would remain the same or increase.

Data Sources

- Population: Based upon US Department of Labor, estimates based upon 2010 census.
- Sales Tax: Based upon Bradley-Burns sales tax collections statistics from the California Department of Tax and Fee Administration. Jurisdictional sales tax receipts may not include unallocated or countywide amounts, or internet based sales.
- Ridership: Based upon average bus and rail weekday boardings from October 2018, as a month representative of annual patterns, from VTA Service Planning statistics.

Limitation of Data Sources:

- Data is static, as of specific points in time.
- Data does not anticipate potential future demographic or ridership changes.
- Santa Clara County’s unincorporated areas population data was not readily available.

Analysis: Governance Models

Observations

• Each governance model has inherent strengths and weaknesses. The relative success of each transit agency, based solely upon their governance model, is difficult to quantify.

• Most of the organizational models can experience the same issues the VTA is assessing, related to member engagement, accountability and voting patterns.

• Similarly, each agency has individuals with varying skill sets that may offset or enhance the organizational design. However, the long-term organizational model should not be revised to meet the current leadership’s personal attributes.

• An organization’s success depends heavily on other factors, such as: its committee structure, term limits and continuity, board leadership expertise, strategic planning and revenue sources.

• At other agencies, some governance models were established due to major precipitating events, such as Board or Executive fraud, major financial insolvency, or population upheavals. VTA has not experienced any of these extenuating circumstances.

• A Transportation Research Board study found that 60% of the agencies surveyed had Board members appointed by elected officials.

Conclusions:

• We did not observe a specific type of governance model, or a specific number of board members, which clearly drove substantial, measurable and transferable improvements to an organization’s governance or operational performance.

• VTA's Board performance, meeting processes, and member engagement can be more readily enhanced through improvement to its current governance model – if VTA adopts several recommended new practices concurrently. Incremental or one-off changes will not provide sustainable results.

### A1. Build Accountability into Management Measurements, to Link Strategy to Execution

<table>

<th>Recommendation</th>

<tr>
<td>VTA has identified multiple disparate strategic themes and values in its recent Strategic Plan, Annual Reports and other documents. We also noted that there are no identified enterprise-wide performance measures. The strategic priorities should be reflected in defined performance measures, which should cascade into management’s performance goals and evaluations.</td>
<td>We have separately recommended that the Board drive an update to the Strategic Plan, which will identify VTA's goals and priorities, and set operational tactics to implement them.</td>
</tr>
<tr>
<td>It is not clear whether any metrics are built in the General Manager’s or senior leadership’s performance objectives, to link the strategy to execution. Therefore, it is not clear how the Board can measure management’s performance against stated and objective measures, to establish accountability towards achieving the goals.</td>
<td>a). The Board should further measure the results on an annual basis. To do this, stated and objective goals should to be established by or for the General Manager and senior leadership.</td>
</tr>
<tr>
<td>Certain benchmark agency Boards discuss collaboratively with their General Managers and the GM’s submit annual performance goals, aligned to the Strategic Plan. The Board or a Committee then annually reviews the progress and achievement against those goals, in a public meeting.</td>
<td>The Board should demonstrate its oversight and accountability, by conducting an annual evaluation of VTA leadership’s results, compared to their planned performance measures.</td>

Outreach: Community and Public Survey Feedback

Participation

• A total of 396 respondents participated in the on-line survey. We thank all those that participated.
• The respondents self-identified as transit users, highway drivers and partner (Caltrain, etc.) users.

Key Themes

• Key themes from specific comments received, that related to governance, can be summarized as (in descending order):
  • Change to a directly elected Board
  • Have Board members pay attention at meetings
  • Have a regional view, not only city view
  • Watch the budget and financial condition
  • Learn more about transportation planning; study other cities or models
  • Provide stronger guidance to staff
  • Be more transparent and accountable
  • Participate more in social media and surveys

E1. Set Member Attendance Expectations

<table>

<tbody>
<tr>
<td>Board and Committee average member attendance rates ranged from 72% to 100% during calendar year 2018 and from January through August in 2019. (Averages were based upon Standing, Advisory, and Ad Hoc Committees and Policy Advisory Boards). Attendance for each Standing Committee decreased in 2019 (January through August) compared to 2018. The Board member survey results noted that attendance rates were a concern to members. Also, quorums were not present in some cases at the beginning of meetings, as Members or Directors arrived late. While official business was ultimately conducted in most cases, efficiency may have been affected, and some Members voted on matters shortly after arriving. We noted that due to a lack of a quorum, one Committee operated properly as a Committee of the Whole, and was therefore unable to provide any recommended actions to the Board.</td>
<td>E1 a). Set a Board expectation that Members will attend all meetings, and arrive on time to actively participate. b). Incorporate attendance results, along with several other developmental factors, into an annual Member Scorecard. See our recommendation P2.</td>

<th>Recommendation</th>

<tbody>
<tr>
<td>The Administrative Code states that “Alternate members shall regularly attend Board meetings and sit for and vote in the place of a Director for his or her City or County Grouping if the Director is absent”. The position of Alternates is specified in VTA's Enabling Act. However, Alternates are typically notified if the regular Member is expected to attend, and then frequently do not attend themselves. Some Alternates’ absence rates are as high as 83%, partially because they have been provided the option not to participate in meetings. Alternates were needed in a minimal number of actual Board or Standing Committee voting situations. No Board meetings in calendar year 2018 required an Alternate member to achieve a quorum. Members in some cases did not contact or brief their Alternate, if needed for a meeting absence.</td>
<td>E2</td>
<td>a). Eliminate the role of Alternates, since they are not often needed for votes or to achieve a Board quorum, and their average attendance rate is low. b). If a Standing Committee is lacking a quorum, Board members who are in attendance but not assigned to that Committee could be authorized to participate and vote on that Committee for that day. (See our separate recommendations on Committees). c). Clarify the Board’s intent and revise the Administrative Code accordingly. Currently, it could reasonably be interpreted as requiring Alternate members to attend meetings.</td>

C2. Revise Guidelines for Public Comment

Observation

VTA operates in a transparent fashion and in accordance with the Brown Act, and provides multiple options for the public to comment on its proceedings, including:

• Non-agenda items, prior to meetings
• Agenda items, sometimes before and after the item
• On-line for inclusion in Board meeting packets
• On-line for topics or news releases on VTA's website

The public comment period is generally not limited and no advance sign-up is required. In some cases, the public comment period has exceeded 90 minutes, when multiple members from the same group speak on the same item. These situations could delay the general orders of business and impact the efficiency of meetings.

Most benchmark agencies required speaker sign-up before a meeting, and set a limit on the public comment time period. Santa Clara Country also sets limits on the duration and number of speakers on a matter.

Recommendation

C2  a). To encourage public input in accordance with the Brown Act, while increasing the efficiency of meetings, VTA should:

• Move comment on non-agenda items to the end of the meeting
• Establish an on-line speaker sign-up process
• Request groups to provide one speaker, not multiple persons
• Allow comments before or after an agenda item, but not both
• Give priority to those who have not recently spoken, by assigning a maximum number of times that a person can speak
• Do not take comment on items at Board meetings that have been discussed at prior Standing Committee meetings, where the public had an opportunity to comment
• Provide a Public Comment Report at each meeting, summarizing on-line or pre-meeting input

The Board Chair should continue to exercise their discretion, as defined in the Administrative Code, to allow additional speakers or add time for major topics.
Compliance Testing Summary Scorecard

Purpose:
• To test VTA's compliance with its governing requirements and procedures, as outlined in its governing documents.
• Governing documents included: Administrative Code, Conflict of Interest Code, Board Rules of Procedure, and Committee Bylaws.

Summary of Testing Results:
• No significant deviations or lack of compliance from VTA's governance documents and procedures were noted.
• There are opportunities for enhancing governance. Please see Recommendations.

# Recommendations: Conflicts Monitoring

## Ethics / Conflicts

**Objective**
Assess whether VTA Board and oversight Committee Members are complying with ethics governance requirements.

**Risk**
Board or Committee members are out of compliance, possibly causing VTA or legal violations.

**Governance**
Administrative Code, Conflict of Interest Code, and Committee Bylaws.

**Scope**
All VTA Board Members and Alternates, and 5 Committee Members (judgmentally selected by RSM)

**Procedures**
Review Form 700, Statement of Economic Interests, as filed with Santa Clara County’s Clerk of the Board of Supervisors.

**Conclusion**
The Members’ Form 700s that were tested were complete and filed on a timely basis, except as noted below.

# Recommendations: Committee Voting Requirement

## Meeting Quorum

**Objective**
Assess whether VTA is holding meetings and making voting decisions in accordance with its governance requirements.

**Risk**
VTA meeting decisions not made in accordance with governance requirements may not provide valid results.

**Governance**
Administrative Code, Board Rules of Procedure, and Committee Bylaws.

**Scope**
VTA Board and Committee meetings during 2019 to date (January through August).

**Procedures**
1. Review VTA Meeting schedule on website and Meeting Portal.
2. Review Attendance Logs for all Board and Standing Committee meetings from July 2018 through August 2019.
3. Review meeting minutes from VTA web site, to note whether a quorum was documented as being present.
4. Review the number of affirmative votes required and taken for passage of an action.

**Conclusion**
Meeting actions were taken with quorums present, for the majority of meetings tested.

## C4. Update Administrative Code for Capital Program Committee’s Voting Requirement

**Observation #** Recommendation
The Administrative Code does not reflect the correct number of members required for the Capital Program Committee’s affirmative voting.

- C4  
  a). Update the Administrative Code to reflect the correct number of members required for affirmative voting.
Recommendations: Public Notice

Public Meeting Notice

Objective
Assess whether the public was appropriately notified in advance of VTA public meetings.

Risk
VTA is not in compliance with its Administrative Code, or the State of California's Brown Act requirements.

Governance

Scope
VTA Board and Committee meetings during 2019 to date (January through August).

Procedures
1. Review VTA Meeting schedule on website and Meeting Portal.
2. Review source documentation maintained by Board Secretary’s Office.

Conclusion
Meetings tested (both held and canceled) were appropriately noticed.

C5. Provide Materials Prior to Public Meetings

Board Member Survey Results: Committees

**Observation**: 15% of Board member respondents thought that the Board utilized feedback from its Committees most of the time.

**Observation**: No Board member respondents thought that any Committee was highly effective.

Note: Charts are subject to interpretation and may not represent the views of the entire VTA Board.
### Recommendations: Supermajority Votes

**C6. Require a Supermajority Vote for Key Items**

</tr>
</tbody>
</table>
| A supermajority vote, of more than seven members, required for approval when required by law, for budget amendment or eminent domain proceedings. | Consider these areas:  
  - Allocation of Measure A or B grant funding  
  - Fare increases  
  - Large capital projects, above a specified amount  
  - Major contracts, above a specified amount  
  - Alternate procurement methods, such as sole source awards above a specified amount  
  - Certain outsourced arrangements  
  - Large labor contracts or back pay above a specific amount |
| The benchmark agencies reviewed required a supermajority vote for approval of additional items. These included:  
  - Allocation of grant funding  
  - Fare increases  
  - Large capital projects  
  - Alternate procurement methods  
  - Certain outsourced arrangements  
  - Large labor contracts or back pay |

BENCHMARK AGENCIES
### Purpose:
Benchmark agencies were selected to compare governance models and research governance documents (Board bylaws, etc.).

**Note:** Comparative analysis can be found in the relevant topical sections of this report.

### Selection Criteria
- Varying financial and ridership performance
- Multi-modal (but not all modes)
- Level of governance complexity / range of responsibility
- Geographical distribution
- Multi-jurisdictional entities
- Varying Board structures
- Varying operating size
- Varying Board size

**Note:** We reviewed National Transit Database (NTD) performance metrics for over 2,500 national full reporters.

### Selection Summary
- Not necessarily peers by operating measures
- Mixture of bus, light rail, heavy rail, highways, funding and regional planning
- Moderate to high complexity
- CA, CO, IL, UT, TX and WA
- Up to 87 participating cities, jurisdictions or districts (combined jurisdictions)
- Elected officials and appointed members. Full time and part time.
- Larger and smaller than VTA
- Range from 3 to 15 members

**Result:** Six selected agencies.

NATIONAL TRANSPORTATION AND CORPORATE RESEARCH
National Transportation and Corporate Research

Purpose and Objective:

• We assessed a variety of public sector and private sector resources
• We sought best practices and lessons learned that might be applicable to VTA’s situation
• The following are brief summaries of each source
• These summaries are not necessarily intended to represent VTA’s circumstances
• See our recommendations elsewhere in this report for specific comments applicable to VTA
Public Transit System Boards: Organization and Characteristics

A Study by the Transportation Research Board (TRB)

- There have been limited studies on transit / transportation governance.
- “There is no universal formula for what transit Boards should look like or how they should function.”
- Scope: National survey of Board Chairs and CEOs/GMs. 254 responses.
- Objectives: Identify Board powers, role, responsibilities, size, structure, composition, and perceptions of effectiveness.
- There are some common topics:
  - Board Selection Methods (elected officials, appointed, hybrid)
  - Average Board Size
  - Length of Board Term
  - Board Chair Employment Status (corporate, elected official, retired)
  - New Member Orientation (workshop, materials, informal orientation)
  - Meeting Frequency (monthly or as–needed)
  - Committee Structure (Executive, Finance/Budget, Planning, Legislative/Government Relations, Marketing)
  - Transit Board Responsibilities (policy setting vs management)
  - Board Effectiveness Self Ratings Areas (political support, funding, planning, transit image, governance, ridership)
  - Improving Effectiveness (committed members, transit knowledge, committee structure, external agency communication)
  - Measures to Assess Board Effectiveness (achieves strategic goals, appearance of equipment, balanced budget, increased ridership, labor relations, employee morale, public opinion, service quality, reputation with media)
Transforming Public Transportation Institutional and Business Models

A Study by the Transportation Research Board (TRB)

- Objectives: Describe how transit agencies are making transformative changes, to equip them to for long term efficiency, effectiveness, reliability, safety, and security. Resulted in 14 case studies.

- Drivers of Change:
  - Funding and finance — funding shortfalls, grant availability
  - New technology – ride sharing, autonomous driving, fare acceptance and ticketing
  - Demographics and society – population shifts, aging and diverse population, housing prices and homelessness
  - Sustainability, energy, and environmental concerns – carbon emissions, electrification
  - Travel, land use, and development patterns – Transit oriented development, millennial driving habits, growth of single-person households, increase in trip “chaining”
  - Infrastructure condition – state of good repair, deferred maintenance

- Themes of Successful Change:
  - Collaboration and partnerships - external partner relationships
  - Clear vision – With regional planning organization, the business community, elected officials, community stakeholders
  - Stable and supportive leadership – building support, experienced leadership, engaging stakeholders
  - Effective governance structure – changes in the composition or role of the Board, and impact on staff
  - Sufficient internal and external resources - modifications to organizational structure, outside expertise, reallocation of tasks.
  - Targeted workforce development – training, key hires.
  - Realignment of agency authority with other regional agencies - re: multimodal planning, project delivery, finance match
  - Risk of failing to change – motivation supports success
A Study by the Transportation Research Board (TRB)

Objectives:
- A reference tool to provide information on the organization and composition of transit boards
- Describes the structure and practices of transit boards
- Includes information on board-selection methods, board size, board length of service, and board composition
- Guidelines for determining the roles and responsibilities of board members and the characteristics of an effective board
- Intended for use by Board policymakers, General Managers, legal advisors, and board support personnel
- Provides six case studies

Board Member Selection Methods (based upon 177 responses):
- 60% Appointed by Elected Officials
- 17% Elected Official Boards
- 11% No Transit Board
- 5% Mixed Boards
- 3% Publicly Elected Boards
- 2% Appointed by Joint Powers Authorities
- 1% Appointed by Non-Elected Officials
- 1% Transportation Advisory Board
Public Officials as Fiduciaries

A Report by Santa Clara University, Markkula Center for Applied Ethics

Objectives: Summarizes fiduciary obligations in the government context, as:

- **Duty of Care** - requires that the public official competently and faithfully execute the duties of the office. Under duty of care fall such obligations as the duty to manage assets competently and be good stewards of the public treasury, to use due diligence in the selection and supervision of staff, to follow the rules and to uphold the constitution and laws of the jurisdiction.

- **Duty of Loyalty** - an absolute obligation to put the public’s interest before their own direct or indirect personal interests. The public fiduciary breaches this obligation when he or she benefits at the public expense. Prohibited benefits can be financial, career related or personal.

- **Duty of Impartiality** - a duty to represent all of their constituents fairly. This means that the public fiduciary cannot favor those of his or her own party over other constituents, or let the fact that someone voted against him or her impact the ability to act fairly.

- **Duty of Accountability** – relates to the duty of transparency and the concepts of disclosure, open meetings, and accessibility of public records. Such access permits checks against the arbitrary exercise of official power and secrecy in the political process.

- **Duty to Maintain Public Trust in Government** - the public is willing to delegate authority and sacrifice some freedoms in exchange for an orderly and civilized society, but only if it believes that government is acting in the public’s best interest. When the public loses trust in government, public cooperation suffers, and compliance with laws fail.
Public Company Governance Survey 2018 - 2019

By the National Association of Corporate Directors (NACD)

Key Survey Findings:

• Quarterly Board agendas typically cover six to seven major governance issues. (This reflects the growing mandate of public-company boards and underlines the difficulty for directors in balancing the breadth and depth necessary for effective oversight).

• Board oversight of corporate culture is more robust than last year.

• Most Directors agree that their Board’s primary role is to guide the organization’s long-term strategic direction.

• Directors spent nearly twice as much time reviewing materials from management as they allocated to reviewing relevant information from external sources. (This reveals a heavy dependence on management views and analysis in fulfilling their oversight duties).

• Strengthening oversight of strategy execution and risk management are top improvement priorities. Changes in the regulatory climate, the prospect of an economic slowdown, growing cybersecurity threats, business-model disruptions, and worsening geopolitical volatility will most significantly impact corporations.

• Most Boards would like to enhance oversight of environmental, social, and governance (ESG) issues.

• Most Boards demonstrate mixed performance as being a strategic asset to their organizations.

• Most Directors believe that their Boards' understanding of cyber risks has improved.

• Progress on gender diversity on public company boards has been limited.

• Artificial intelligence (AI) is the biggest technology disruptor, but also is the biggest business enabler.
