Funding

- 2021 Better Bus Stops program
 - **Up to \$6.7 M**
 - \$4.1 M in MTC Lifeline Grant Cycle 5
 - \$2.6 M in Measure B Bus Stop Amenities funding category
- Future annual Better Bus Stop program
 - Measure B Bus Stop Amenities funding category

What do Better Bus Stops look like?

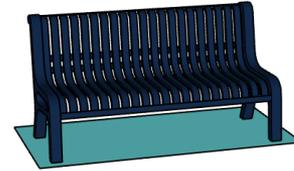

Potential Amenities

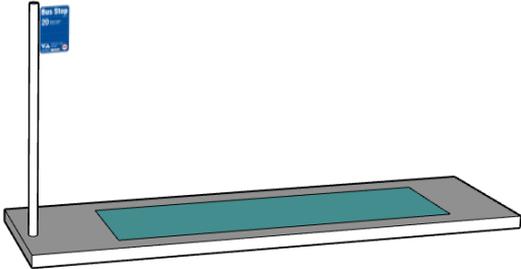

Trash receptacle

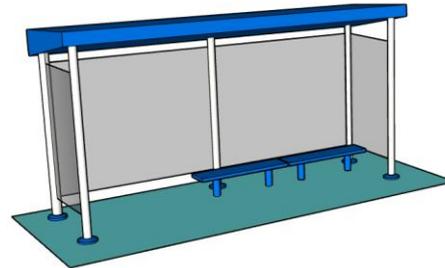

Info sign

Metal bench

Solar light

Shelter

VTA policies guide placement of stop amenities

Higher ridership stops get more amenities

TPEP Categories	Basic	Core	Major
Average Weekday Boarding	< 40	40 – 199	200+
# of stops within category	3,309	501	104
% of ridership (average weekday boardings)	20%	40%	40%

80%

Considerations to Surrounding Area

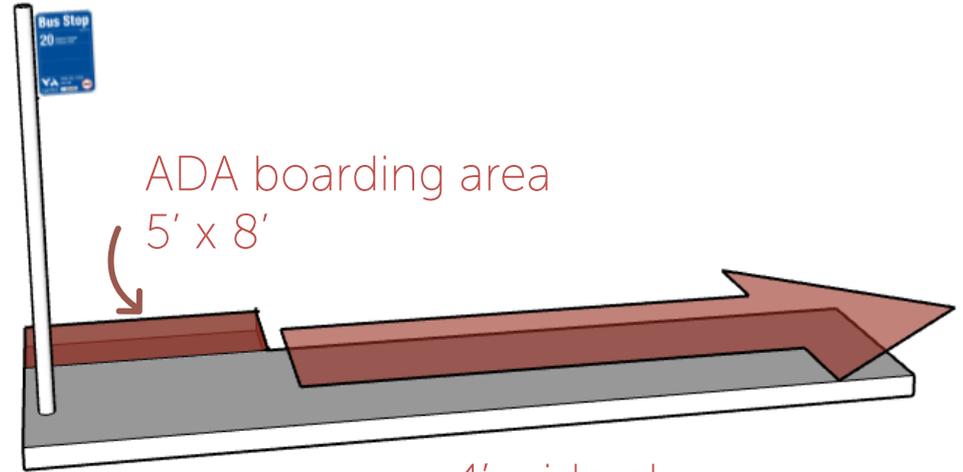

Urban Stops

Suburban Stops

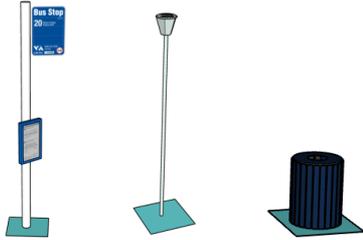

ADA Requirements

Easier

Often easier when amenities can readily fit without impeding on ADA requirements

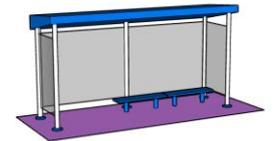

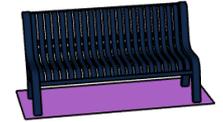

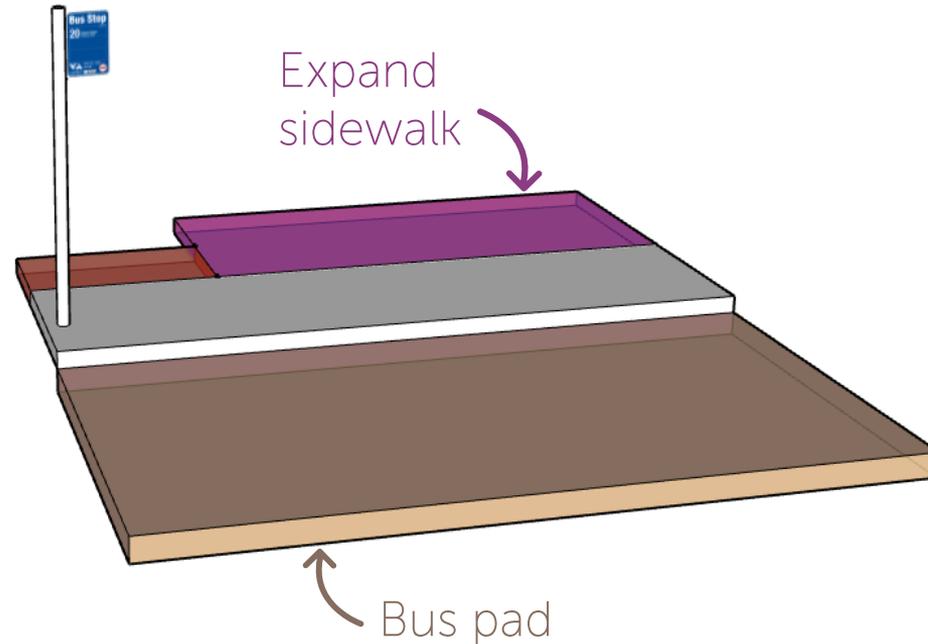

- info sign
- lighting
- trash can

More Complex

Some amenities may require concrete work, sidewalk expansion, and/or easements

- bench
- shelter
- bus pad

Potential Project List

VTA's Better Bus Stops Program aims to advance regional transit equity through new investments in bus stop improvements. It is the first in an annual program that will consider every bus stop in the system and enhance amenities for riders.

We are seeking community input, particularly transit users, to review the initial project list and help staff identify and prioritize where improvements should go.

To submit feedback on bus stops you can take one of our 2 surveys:

1. Click the tab [Rate a Bus Stop](#) on the top of this page to submit feedback on a particular VTA bus stop
2. Click the tab [Rider Survey](#) on the top of this page to submit feedback on what amenities are most important to you

To learn more about this year's 2021 Better Bus Stop Program please visit our project website [here](#).
