

## FACT SHEET VTA's BART Silicon Valley Phase II Project

### Downtown San José Station

#### Overview

VTA's BART Silicon Valley Phase II Extension (Phase II) Project is a six-mile, four-station extension that will expand BART service from Berryessa/North San José through downtown San José to the City of Santa Clara. The Phase II Project is planned to include an approximately five-mile tunnel, three stations with underground platforms and boarding (28th Street/ Little Portugal, Downtown San José, and Diridon), one ground-level station (Santa Clara), a train maintenance and storage facility and additional facilities.

San José's downtown is home to over 250 restaurants, numerous art galleries, museums and theaters, and unique festivals and special events. The downtown area includes San José State University, the artsy SoFA District, San Pedro Square, the Convention Center and Cultural District. The Downtown San José Station is planned to be located along East Santa Clara Street between Market Street and 1st Street.

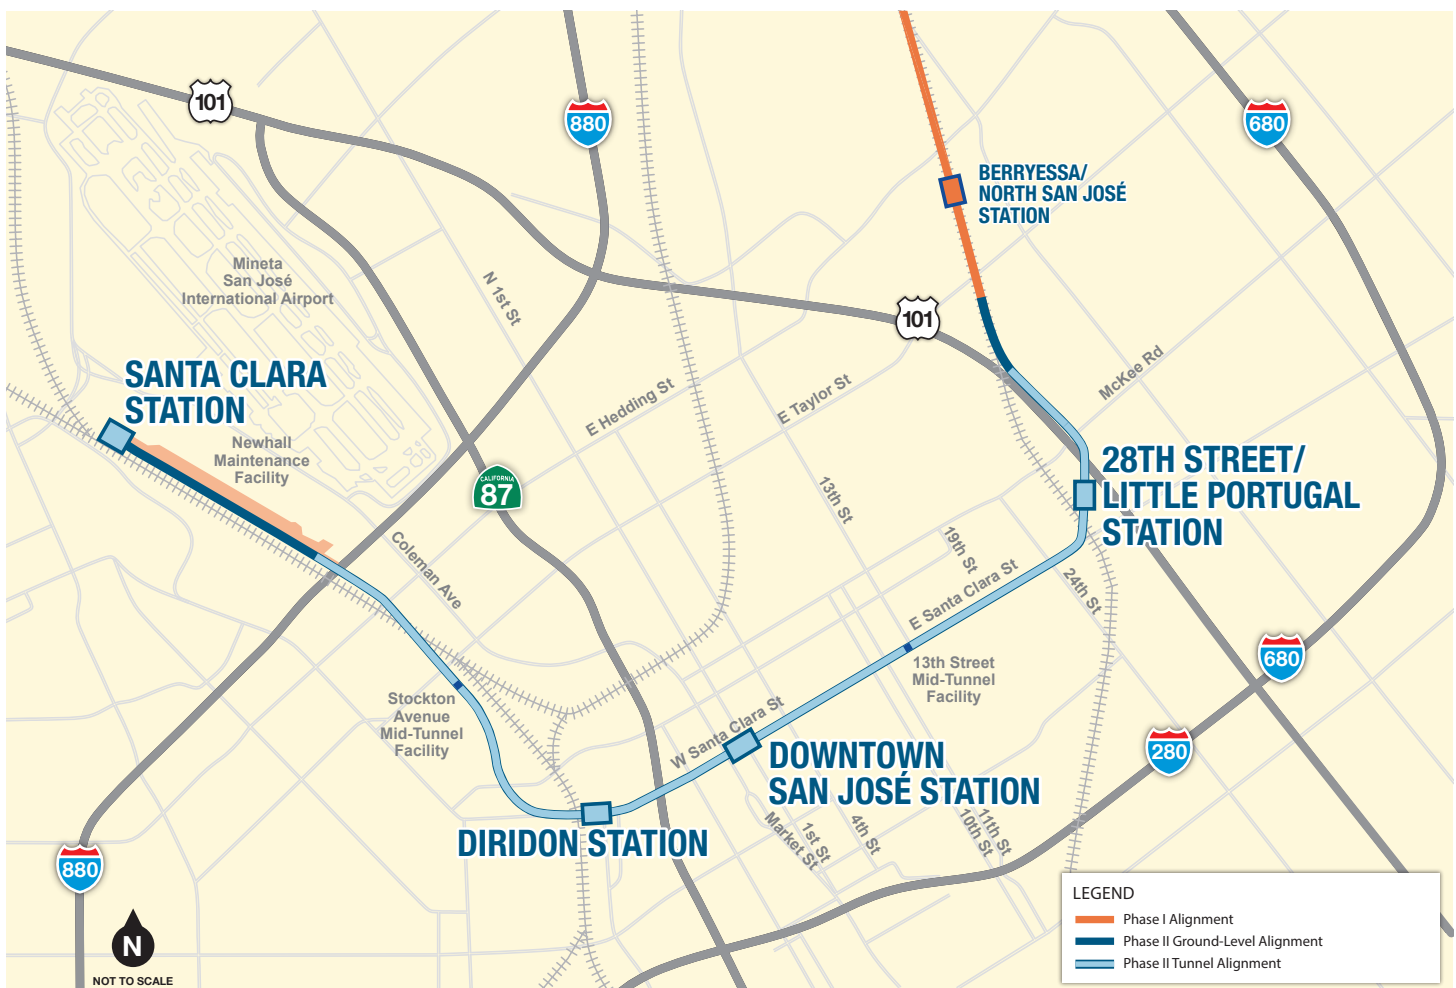

## Downtown San José Station at a Glance

- 24,300 daily passengers projected in 2035
- Above ground station with underground platforms
- Passenger pick-up/drop-off facilities as well as bus and shuttle loading areas
- Bicycle storage facilities
- Streetscape improvements proposed along Santa Clara Street
- Transit-Oriented Development, which is walkable, mixed use development close to transit, will be integrated with station facilities
