Dear Valued Customer:

At Pacific Gas and Electric Company (PG&E) our top priority is to provide you with safe, reliable, affordable and clean energy. The Valley Transportation Authority (VTA) requested we relocate our electrical facilities that serve homes and businesses in your community. These facilities must be relocated to allow the Capitol Expressway Light Rail Relocation Project.

This work will take place in the vicinity of Capitol Expressway between Cunningham and Quimby Roads in San Jose. We expect work to start in late September and continue through December. Weather and other factors that affect safe working conditions may change our schedule.

What You Can Expect

All personnel are required to carry valid photo identification and are happy to provide it upon request. During construction, you may see PG&E, contractor trucks and other heavy equipment. We will do our best to minimize the impact, but you may hear intermittent construction noise.

We planned ahead to avoid electric service interruption during construction. However, if a temporary service interruption is necessary, we will send a separate letter in advance to provide you with the details and schedule of the interruption in service.

Potential Traffic Impacts

If necessary, we will post "No Parking" signs at least 72 hours in advance of the work and route traffic around work areas. Driveway access may be affected, but crews can provide access within a few minutes of a request. Please plan for minor delays if crews are working outside your home or business.

Your Local Contact If You Have Questions

If you have any questions or concerns about PG&E work, please feel free to contact your Local PG&E Representative, Sonya Refuerzo at 408-494-4121 during normal business hours or email us at electricreliability@pge.com. For questions regarding VTA work please call, VTA Customer Service at 408-321-2300 Monday through Friday from 6:00 a.m. to 7:00 p.m. or email customer.service@vta.org.

Thank you for your cooperation while we work to improve reliability and safety for you and your neighbors.

Sincerely,
