

San Jose Water Relocation-Revised 2/11/2022

What

Weather and conditions permitting, San Jose Water Company, and their contractor, Pacific Underground Construction (PUC), will continue relocating existing and installing new underground water facilities.

San Jose Water Company provides notices to residents, schools, and businesses at least three days before they begin work in their area. If there is any disruption to water service, San Jose Water Company will notice their customers 48 hours in advance.

Where

Crews will work on Capitol Avenue/Expressway between Wilbur Avenue and Tudor Court. *Overnight* work activities will take place along Capitol Expressway @ Story Road, 9 PM – 5 AM.

Additional activities will continue at the following locations during the day 9 AM - 3:30 PM on

- Capitol Expressway and Highwood Drive
- Capitol Expressway and Bambi Lane
- Capitol Expressway and Kollmar Drive
- Capitol Expressway @ Story Road (overnight beginning 2/14)

Questions about this activity can be answered by Ryan Johnston, Construction Supervisor (408) 918-8235 during normal business hours, or email Ryan.johnston@sjwater.com.

Questions about the project can be answered by VTA Community Outreach and Public Engagement, (408) 321-7575, or community.outreach@vta.org

When

Ongoing with new activity at E. Capitol Avenue/Story Road beginning 2/14/2022 for up to 4 weeks.

Overnight 9 PM – 5 AM

Day 9AM – 3 PM

Why

Underground water lines need to be relocated before construction of the light rail extension can move forward next year. It is necessary to relocate underground utilities that conflict with the final project. To learn more about utility relocation, please review the [newsletter](#) that was sent to the community in late August.

Detour

When necessary, intermittent, temporary detours will be utilized. Follow posted detour signs.

Community Impacts

- Noise from heavy construction equipment used for drilling, concrete and pavement removal, installation of water mains, and replacement of concrete and pavement
- Noise from construction vehicles driving forward and in reverse with back up alarms beeping
- Temporary, intermittent lane or shoulder closures and detours
- Temporary, intermittent sidewalk closures and detours
- Temporary driveway impacts
- San Jose Water will provide customers advance notice of any potential service interruptions.

Service Impacts

VTA Bus and Light rail service are not expected to be impacted.

Bicycle Impacts

When necessary, bicycle riders will be safely detoured around work locations.

Pedestrian Impacts

When necessary, pedestrians will be safely detoured around work locations.

Traffic Impacts

Temporary, intermittent lane or shoulder closures. Follow directions on posted signage.
