Homestead Road Safe Routes to School Project

Public Meeting

April 3, 2024

Introduction

- ▶ **Hassan Basma**, VTA Project Manager
- ▶ **Lauren Ledbetter**, VTA Senior Planner
- ▶ **Menominee McCarter**, VTA Public Coordinator
- ▶ **Zila Shafie**, DEENSCORP Project Manager
- ▶ **Nabilah Hazara**, DEENSCORP Project Engineer

Agenda

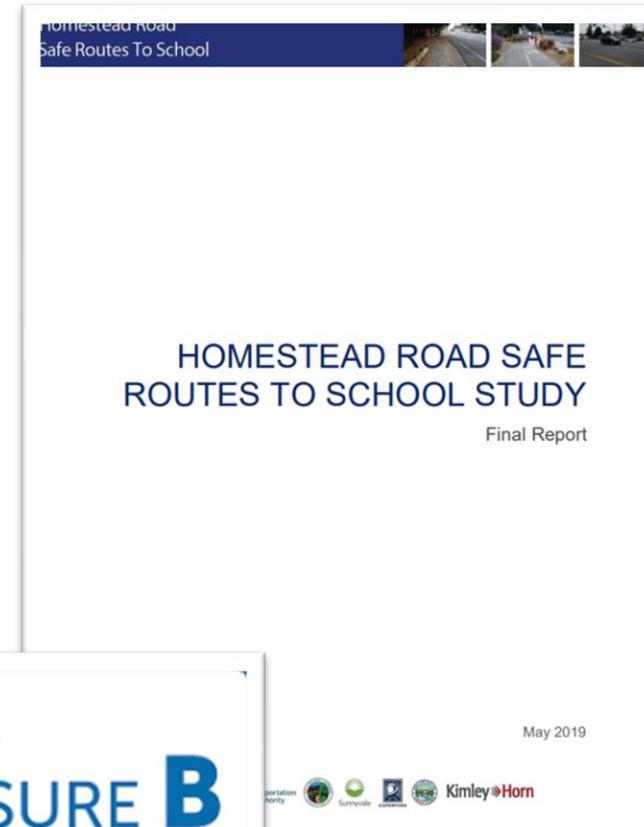

- ▶ **Project Background & Overview**
- ▶ **Project Goals & Design Considerations**
- ▶ **Project Cost & Schedule**
- ▶ **Upcoming Outreach Meetings**
- ▶ **Q&A**

Public Meeting Goals

- ▶ **Summarize Past Project Activities**
- ▶ **Understand Public Concerns**
- ▶ **Introduce Design Concepts**
- ▶ **Discuss Next Steps & Public Outreach**

Project Background

- ▶ **2018** - County Board of Supervisor Joe Simitian championed this project
- ▶ **2019** - County of Santa Clara Roads & Airports completed the Homestead SRTS Study Report
- ▶ **2023** - 2016 Measure B funds were secured. Project went to bid for design and was awarded.

Past Project Activities

- ▶ **Previous Public Outreach:**
 - ▶ Two Community Meetings were held with extensive public outreach
- ▶ **Collaboration between Stakeholders:**
 - ▶ Cities of Sunnyvale, Los Altos, and Cupertino
 - ▶ Caltrans and County of Santa Clara
 - ▶ School districts, parents, students, and staff

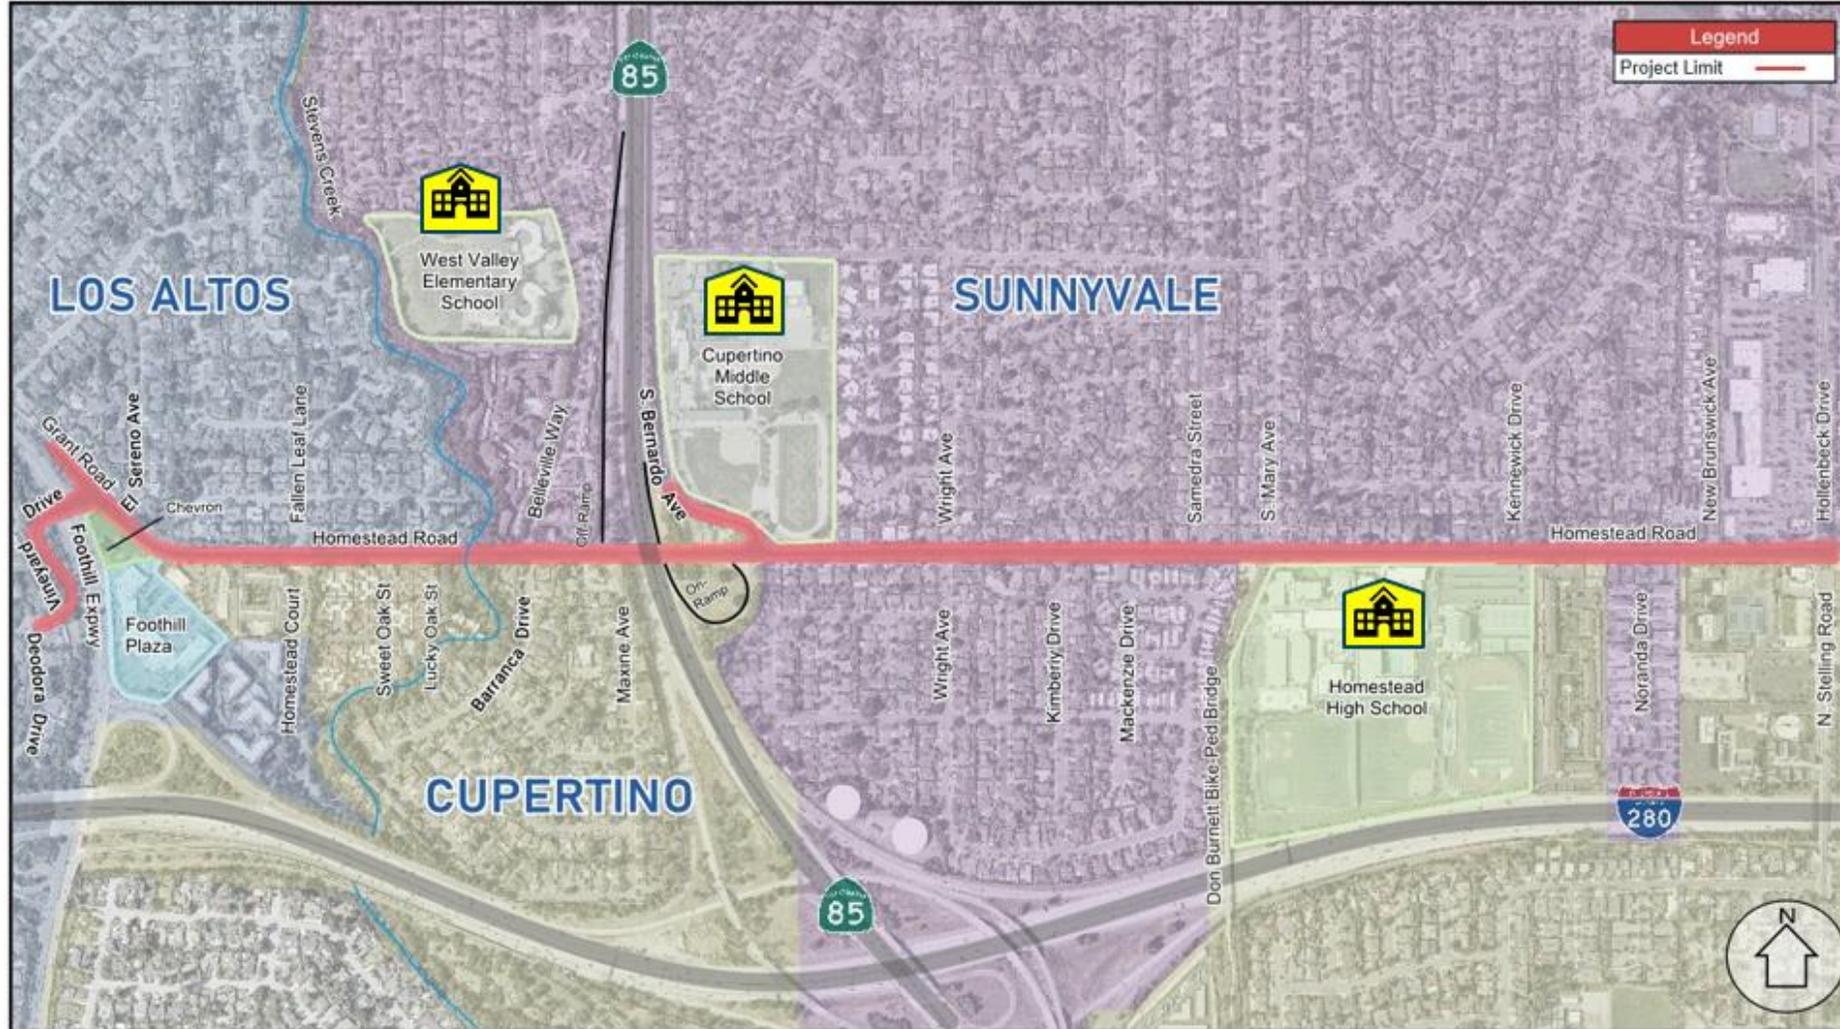

Understanding Project Concerns

- ▶ **Lack of safety for kids crossing the road (multiple locations)**
- ▶ **Unsafe turning leads to vehicle and bicycle conflicts**
- ▶ **Improve visibility at crosswalks (unprotected crosswalks)**
- ▶ **Curb ramps need to be bike and pedestrian friendly**
- ▶ **Improve how students bike and walk through the corridor**
 - ▶ Biking in opposite direction of travel way
 - ▶ Crossing against red light
 - ▶ Biking on sidewalk with pedestrians
- ▶ **Multiuse paths/sidewalks are not wide enough**
- ▶ **Gaps in sidewalks and bicycle lanes**

2019 Final Study Report Recommendations

- ▶ A **preferred alternative** was developed from the study report recommendations with input from stakeholders on key design elements

Project Area Map

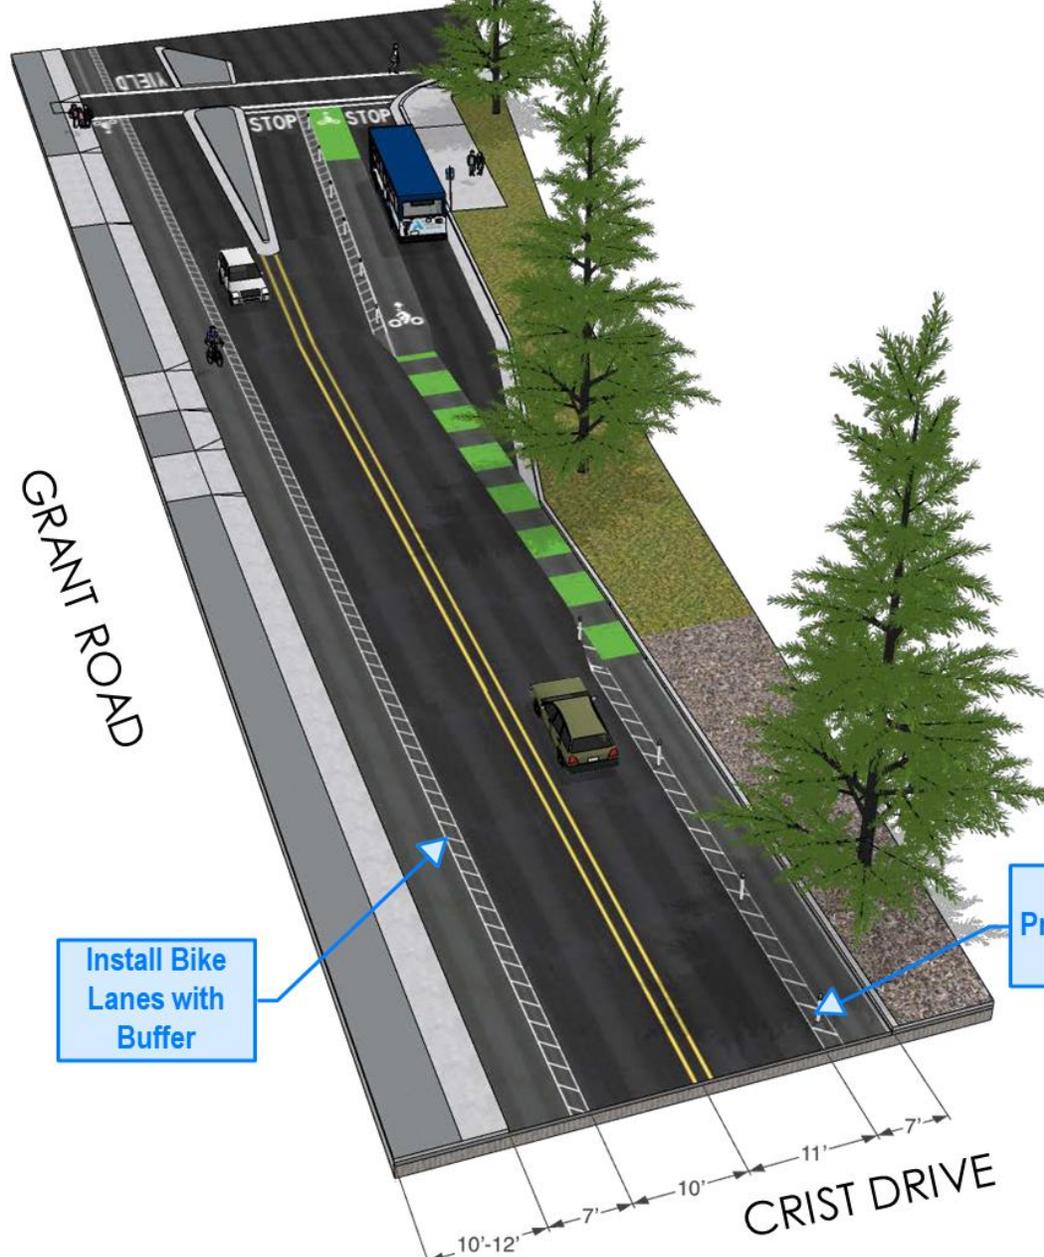

Project Goals

- ▶ Implement bicycle and pedestrian infrastructure improvements for **Safe Routes to Schools**
- ▶ **Support safe and efficient modes of transportation:**
Biking, walking, driving, and riding public transit
- ▶ **Connect students from three schools along project corridor:**
 - ▶ West Valley Elementary School
 - ▶ Cupertino Middle School
 - ▶ Homestead High School

Design Considerations

- ▶ Installation of new sidewalks to close gaps in connectivity
- ▶ Widen sidewalks and shared use path where feasible
- ▶ Convert bike lanes to Buffered or Protected where feasible
- ▶ Tighten corner curb radii and shorten crossing distance
- ▶ Install new ADA curb ramp for improved accessibility
- ▶ Traffic Signal Improvements
- ▶ Upgrade to high visibility crosswalks to improve pedestrian crossings
- ▶ Eliminate free-right lanes (Foothill Expwy, SR-85 On Ramp)
