

Santa Clara Valley Transportation Authority

U.S. 101/Monterey Road Wildlife Crossings Project

Construction Notice

What: The Santa Clara Valley Transportation Authority (VTA), in cooperation with Peninsula Open Space Trust (POST), California Department of Transportation (Caltrans), and the City of San Jose, proposes to construct and retrofit wildlife crossing structures and associated improvements in Coyote Valley in Santa Clara County at US 101 and Monterey Road.

Geotechnical data is required at multiple locations along Monterey Road to further develop design plans for the project.

What to Expect: Weather and conditions permitting, temporary, intermittent, rolling lane closures for geotechnical borings will occur along Monterey Road, San Jose.

Each location will take about two to four hours and includes restoration of the area.

Location: North and Southbound Monterey Road, San Jose, between Metcalf Road and Blanchard Road

Approximate Start Date and Duration of Work: Beginning on or about November 9, 2026. It will take up to 4 days to investigate 8 locations.

General Work Hours: 7 a.m. – 6 p.m., Monday-Thursday.

Impacts: At least one traffic lane in each direction will always be open where the work is being performed. Work area will be restored once work is complete.

Funding Partners:

VTA · Caltrans · POST · City of San Jose, Capital of Silicon Valley
